Cybercrime, Digital Forensic Readiness, and Financial Crime Investigation in Nigeria Robinson Tombari Sibe, Christian Kaunert, 2024-03-26 Nigeria has become one of the hotbeds of cybercrime since the liberalization of the telecommunication industry began in 1996 The scale and magnitude have been quite disturbing not just for Nigeria but also for the international community given the limitless boundaries of cybercrime Like any other type of fraud Internet fraud is primarily driven by financial gains This book investigates the extent of the lack of digital forensic resources in Nigeria s financial crime agencies It is vital to have a proper resource inventory and capabilities to successfully confront the growing threat of financial crimes While a few studies have suggested the lack of forensic capabilities in Nigerian cybercrime investigative agencies and the justice system none have examined this in great detail particularly in relation to specific skills gaps and resources needed in Nigeria s financial crime agencies This book contributes to the growing body of knowledge and clarifies the scope of the lack of digital forensic resources Understanding the extent of the deficiency and its impact on caseloads could be crucial for developing a roadmap toward building forensic readiness and capability maturity for the agencies This book presents the deficiencies in forensic readiness and recommends measures to fill this gap This book also examines the specifics of the cybercrime caseloads and conviction records in Nigeria identifying trends and patterns The book explores other cybercrime complexities in Nigeria such as common cybercrime taxonomies prosecution and conviction dynamics juxtaposing it with select case studies in other jurisdictions Drawing on extensive research the book offers crucial insights for policymakers researchers and the public interested in new trends in cybercrime digital forensic readiness Nigerian financial crime agencies and cybercrime investigations *The Violent Take It by Force* Matthew D.

Taylor, 2024-10-01 Required reading for anyone seeking to understand Christian nationalism Kristin Kobes Du Mez author of *Jesus and John Wayne* A propulsive account of the network of charismatic Christians that consolidated support for Donald Trump and is reshaping religion and politics in the US Over the last decade the Religious Right has evolved Some of the more extreme beliefs of American evangelicalism have begun to take hold in the mainstream Scholar Matthew D Taylor pulls back the curtain on a little known movement of evangelical Christians who see themselves waging spiritual battles on a massive scale Known as the New Apostolic Reformation this network of leaders and believers emerged only three decades ago but now yields colossal influence galvanizing support for Trump and far right leaders around the world In this groundbreaking account Taylor explores the New Apostolic Reformation from its inception in the work of a Fuller Seminary professor to its immense networks of apostles and prophets to its role in the January 6 riot Charismatic faith provided righteous fuel to the fire that day where symbols of spiritual warfare blazed rioters blew shofars worship music blared and people knelt in prayer This vision of charismatic Christianity now animates millions lured by Spirit filled revival and visions of Christian supremacy Taylor s unprecedented access to the movement s leaders archives internal conference calls and correspondence gives us an

insider account of the connection between charismatic evangelicalism and hard right rhetoric Taylor delves into prophetic memes like the Seven Mountains Mandate the Appeal to Heaven flag and the Cyrus Anointing Trump s spiritual advisor Paula White s call for angelic reinforcements and Sean Feucht and Bethel Music s titanic command of worship styles across America Throughout Taylor maps a movement of magnetic leaders and their uncompromising beliefs and where it might be headed next When people long to conquer a nation for God democracy can be brought to the brink Reflecting on the Past, Shaping the Future: Examining Intellectual Property and Technology Law in Africa Bukola Faturoti, Subhajit Basu, 2025-02-12 Besides the abundance of natural resources intellectual property IP and technology have played a significant role in Africa s ongoing economic growth and development Based on these premises this book reflects on the utilisation of both technology and intellectual property in Africa This book brings together expert contributors to examine how Africa can maximise the opportunities afforded by both technology and intellectual property Drawing from various aspects of life the book underscores how Africa has failed to use either technology or intellectual property for its development effectively and proposes some reforms The book explores the intersection of IP and technology in areas such as cultural heritage tax education and agriculture among others While the problem of access and adoption underpins the entire book each chapter offers a different perspective on tackling this issue This book will interest researchers and scholars working in the areas of intellectual property technology law and development in Africa as well as lawmakers policymakers state actors and other stakeholders concerned with the access and adoption of technologies in emerging economies It was originally published as a special issue of the International Review of Law Computers Technology Reimagining Nigeria's Educational System Joseph A. Balogun, 2023-09-20 This book assesses the challenges within the Nigerian educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing at all levels In Nigeria many citizens believe that the solution to the country s low performance in education is to eliminate high stakes standardized testing High stakes testing refers to applying standardized student achievement tests as a primary mechanism to evaluate students teachers and their school s performance This book argues that the poor quality of education and low ranking of Nigeria s educational system is not related to the negative consequences of high stakes testing but rather is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of interest to policymakers and scholars in the fields of African education higher education quality and global studies African studies management and administration leadership and professional development studies Joseph Abiodun Balogun is former Dean and retired Distinguished University Professor at the College of Health Sciences Chicago State University USA Visiting Professor Program Consultant at the Centre of Excellence in Reproductive Health Innovation University of Benin Nigeria and President CEO Joseph Rehabilitation Center Tinley Park Illinois USA **Marriage in View** Joseph Ola, Anu Ola, This book
