**Heidegger & Derrida** Herman Rapaport, 1989 As the spell of Jacques Derrida grows stronger with more translations and analyses appearing every season it is possible and necessary to determine what in his work is truly new and what continues philosophical and literary traditions Although Martin Heidegger has been mentioned before as a precursor of deconstruction Herman Rapaport is the first to develop the connections between the writings of the German philosopher and Derrida Heidegger and Derrida discusses the French philosopher's adoption of certain Heideggerian themes and his extension or overturning of them But Rapaport does more than show how deconstruction builds on the philosophical foundations laid by Heidegger and also by Hegel Nietzsche and Freud In the most comprehensive study of Derrida's works to date he tackles the problem of writing an intellectual history about a figure who has put into question the possibility of such a construction and acknowledges Derrida's concerns with Jewish history in relation to Western thought **A Critique of Postcolonial Reason** Gayatri Chakravorty Spivak, 1999-06-28 Are the culture wars over When did they begin What is their relationship to gender struggle and the dynamics of class In her first full treatment of postcolonial studies a field that she helped define Gayatri

Chakravorty Spivak one of the world's foremost literary theorists poses these questions from within the postcolonial enclave

**The Mark of Theory** Andrea Bachner, 2017-11-28 What imaginaries tropes and media have shaped how we theorize The Mark of Theory argues that inscription constitutes one of the master metaphors of contemporary theory As a trope that draws on a wide array of practices of marking from tattooing to circumcision from photographic imprints and phonographic grooves to marks on a page inscription provides an imaginary that orients and irritates theoretical thought Tracing inscriptive imaginaries from the late nineteenth century to today The Mark of Theory offers a wide ranging conceptual genealogy of contemporary thought Navigating poststructuralism's attention to figurative language as well as media theory's attention to objects phenomena and practices of mediation the book works through core questions for how we theorize Across a range of disciplines and scholarly conversations from literature and media to anthropology race and gender art psychoanalysis sound and ultimately ethics sites of inscription come to constitute the past legacy of a thought to come a prehistory of our current moment In focusing on materiality and mediation The Mark of Theory shows how inscriptive practices shape conceptual thought as well as political and ethical choices By contextualizing the fraught relationship between materiality and signification The Mark of Theory lays the ground for a politics of theory that begins there where theory and politics are no longer conflated *Encyclopedia of Contemporary Literary Theory* Irene Rima

Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture Neoplatonism After Derrida Stephen Gersh, 2006 This volume deals with the relation between Derrida and Neoplatonism ancient patristic medieval presenting that relation in the form not only of the actual reading of Neoplatonism by Derrida but also of a hypothetical reading of Derrida by Neoplatonism Perspectives on Constructivism Richard Fox, 1996 *Hamlet Studies*

,2003 **Collective Worship** ,1997 Anxious Identity Ho-chia Chueh,2004-12-30 This work is a systematic analysis of texts with arguments on political performance of representation and agency in education The author critically examines discourses on the politics of difference including those of Paulo Freire Claude Levi Strauss Iris M Young and Chantal Mouffe Derrida s thoughts on the political as a way to understand difference and identity in education concludes the volume This work begins with an examination of Hegel s work on the relationship between the lord and the bondsman which is implemented in the political discourse of Paulo Freire It explores the methodological value of concepts of opposition it looks at the work by Levi Strauss on cultural differences as well as that of Iris M Young and Chantal Mouffe on the politics of difference Anxious Identity calls for a consideration of Derrida s thoughts on the political as an approach to understanding difference and identity In addition to work of Western philosophers and theorists included are the postcolonial writers Homi Bhabha and Gayatri Spivak **Official Index to the Times** ,1926 Complementarity Arkady Plotnitsky,1994 Many commentators have remarked in passing on the resonance between deconstructionist theory and certain ideas of quantum physics In this book Arkady Plotnitsky rigorously elaborates the similarities and differences between the two by focusing on the work of Niels Bohr and Jacques Derrida In detailed considerations of Bohr s notion of complementarity and his debates with Einstein and in analysis of Derrida s work via Georges Bataille s concept of general economy Plotnitsky demonstrates the value of exploring these theories in relation to each other Bohr s term complementarity describes a situation unavoidable in quantum physics in which two theories thought to be mutually exclusive are required to explain a single phenomenon Light for example can only be explained as both wave and particle but no synthesis of the two is possible This theoretical transformation is then examined in relation to the ways that Derrida sets his work against or outside of Hegel also resisting a similar kind of synthesis and enacting a transformation of its own Though concerned primarily with Bohr and Derrida Plotnitsky also considers a wide range of anti epistemological endeavors including the work of Nietzsche Bataille and the mathematician Kurt G del Under the rubric of complementarity he develops a theoretical framework that raises new possibilities for students and scholars of literary theory philosophy and philosophy of science A Teacher's Introduction to Deconstruction Sharon Crowley,1989 This monograph is designed to help English teachers see what it is that the literary theory of deconstruction has to offer them as they pursue their work The monograph focuses on the implications of deconstruction for the English classroom in American schools It includes a discussion of Jacques Derrida s philosophy of reading and writing a review of some American critics reactions to deconstruction and responses made by English teachers to the theory and an examination of a deconstructive reading of writing pedagogy as it underscores the appropriateness of much of the lore connected with process pedagogy The monograph also contains an appendix on How to Read Derrida three pages of endnotes a brief glossary of deconstructionist terminology a 70 item list of references an 11 item list of Derrida works not cited in the text a 38 item bibliography of works on Derrida and deconstruction and a 9 item list of exemplary
