A. Moreira, 2022-10-13 Since immemorial times persons have been engaged in disputes in metaphysics This book reacts to this fact by supporting five theses Thesis 1 is that disputes are micro wars that have a significant social importance they involve conflicting parties who may resort to some kind of violence and depend on normative factors Thesis 2 is that disputes can be approached from right wing or left wing stances Thesis 3 is that the grounds for endorsing an approach to a dispute are problematic starting points that may be rationally rejected Thesis 4 is that disputes have an incommensurable greatness Thesis 5 is that right wing approaches to disputes may be less appealing than the left wing one championed by the book for those who endorse that one is to avoid expressing subtle violence This is the violence expressed by those who suggest that others who disagree with one s criteria to deal with disputes fall short of logos or act as if such others did not exist
