TikTok Broadway Trevor Boffone, 2024 TikTok Broadway Musical Theatre Fandom in the Digital Age explores how TikTok has revolutionized musical theatre fandom and democratized musical theatre fan cultures and spaces The book argues that TikTok has created a new canon of musical theatre thanks to the way virality works on the app expanding musical theatre into a purely digital realm that spills into other non digital aspects of U S popular culture *The Fourth Intelligence Revolution* Anthony Vinci, 2025-10-28 A former senior intelligence officer reveals how espionage is being transformed by a new global intelligence race driven by AI and competition with China and how this impacts all of our lives The new global intelligence competition has brought espionage into our workplaces and our living rooms Adversaries like China Iran and Russia have realized that the human element is the weakest link in our industrial and political infrastructure As a result they target all of us stealing our financial data and medical records eavesdropping on our conversations and using platforms like TikTok and Hollywood movies to influence our opinions The Fourth Intelligence Revolution reveals how the undercover adventures of World War II the spy versus spy confrontations of the Cold War and the find fix and finish counterterrorism missions after 9 11 have given way to the most dangerous period of espionage yet This eye opening account exposes how intelligence now permeates every corner of society from economic espionage and genetic data gathering to information operations targeting children through AI chatbots even extending to reconnaissance on the far side of the moon Both a warning and a call to action The Fourth Intelligence Revolution suggests that we are all in essence becoming intelligence officers and that citizens have both the power and responsibility to reclaim intelligence to safeguard and strengthen our democracy *Tomorrow's People and New Technology* Felix Dodds, Carolina Duque Chopitea, Ranger Ruffins, 2021-10-13 As we witness a series of social political cultural and economic changes disruptions this book examines the Fourth Industrial Revolution and the way emerging technologies are impacting our lives and changing society The Fourth Industrial Revolution is characterised by the emergence of new technologies that are blurring the boundaries between the physical the digital and the biological worlds This book allows readers to explore how these technologies will impact peoples lives by 2030 It helps readers to not only better understand the use and implications of emerging technologies but also to imagine how their individual life will be shaped by them The book provides an opportunity to see the great potential but also the threats and challenges presented by the emerging technologies of the Fourth Industrial Revolution posing questions for the reader to think about what future they want Emerging technologies such as robotics artificial intelligence big data and analytics cloud computing nanotechnology biotechnology the Internet of Things fifth generation wireless technologies 5G and fully autonomous vehicles among others will have a significant impact on every aspect of our lives as such this book looks at their potential impact in the entire spectrum of daily life including home life travel education and work health entertainment and social life Providing an indication of what the world might look like in 2030 this book is essential reading for students

scholars professionals and policymakers interested in the nexus between emerging technologies and sustainable development politics and society and global governance
