College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School s Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in The Washington Post The Baltimore Sun Mensa Bulletin and Economic Times and Mint India s 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta

Popular Music in a Digital Music Economy Tim J. Anderson,2013-12-17 In the late 1990s the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners The dovetailing of these two circumstances is the basis of a new mode of musical production and distribution where new practices emerge This book is not a definitive statement about what the new music industry is Rather it is devoted to what this new industry is becoming by examining these practices as experiments dedicated to negotiating what is replacing an object based industry oriented around the production and exchange of physical recordings In this new economy constant attention is paid to the production and licensing of intellectual property and the rise of the social musician who has been encouraged to become more entrepreneurial Finally every element of the industry now must consider a new type of audience the end user and their productive and distributive capacities around which services and musicians must orient their practices and investments

A New Approach for Developing Business Model Innovation Michael Lang,Annika Koerdt,2019-12-30 Research Paper
postgraduate from the year 2019 in the subject Business economics Company formation Business Plans grade 1 0 Mendel
University Business and Economics language English abstract Business model innovation has received increasing interest
within science and managerial practice over the last years Accordingly scientists have developed various approaches on
business model innovation However it has been recognized that established companies face particular challenges
successfully innovating their business model Current academic research considers the company s established dominant logic
to be the main barrier hindering the innovation process In contrast to that none of current theories on business model
innovation covers the overcoming of the dominant logic in their approaches The research gap leads to the question how does
a new approach for business model innovation looks like which support today s companies in their current and future
challenges To answer this question Chapter 1 highlights the need for action Based on that Chapter 2 deals with the theory of
business model innovation and dominant logic Chapter 4 highlights the research gap reflecting on the role of dominant logic
within business model innovation Chapter 5 aims at developing the according strategy which acknowledges and effectively
addresses the innovation barrier of the dominant logic Finally the last Chapter summarizes the findings how the new
academic approaches on business model innovation is characterized and discuss the validation of the new theory
