**The Insta-Food Diet** Pixie Turner, 2020-08-06 Social media is a major part of modern life Most of us can't imagine not using it and it's unrealistic to assume that's even possible We are obsessed with social media We share pictures of our food and inspect what everyone else is eating compare calories and macros and get involved in wacky and dangerous food challenges We think we're in control but most of us have no idea how much of an impact it has Did you realise that posting pics of your meal can actually make it taste better That clean eating is giving you anxiety That the influencers you follow are actually shaping government policy around food Pixie Turner is here to arm you with everything you need to know to take back control and make social media work for you

Young People and Social Media: Contemporary Children's Digital Culture Steve Gennaro, Blair Miller, 2021-10-05 Young People and Social Media Contemporary Children's Digital Culture explores the practices relationships consequences benefits and outcomes of children's experiences with on and through social media by bringing together a vast array of different ideas about childhood youth and young people's lives These ideas are drawn from scholars working in a variety of disciplines and rather than just

describing the social construction of childhood or an understanding of children's lives this collection seeks to encapsulate not only how young people exist on social media but also how their physical lives are impacted by their presence on social media. One of the aims of this volume in exploring youth interaction with social media is to unpack the structuring of digital technologies in terms of how young people access the technology to use it as a means of communication, a platform for identification and a tool for participation in their larger social world. During longstanding and continued experience in the broad field of youth and digital culture we have come to realize that not only is the subject matter increasing in importance at an immeasurable rate but the amount of textbooks and/or edited collections has lagged behind considerably. There is a lack of sources that fully encapsulate the canon of texts for the discipline or the rich diversity and complexity of overlapping subject areas that create the fertile ground for studying young people's lives and culture. The editors hope that this text will occupy some of that void and act as a catalyst for future interdisciplinary collections. *Young People and Social Media: Contemporary Children's Digital Culture* will appeal to undergraduate students studying Child and Youth Studies and given the interdisciplinary nature of the collection, scholars, researchers and students at all levels working in anthropology, psychology, sociology, communication studies, cultural studies, media studies, education and human rights among others.

Practitioners in these fields will also find this collection of particular interest. **Empowering Indian Women Through Resilience** Abha Singh, Rahul Bhadouria, Sachchidanand Tripathi, Ritu Modi, Shashidhar Gupta, 2025-02-24. The book examines various aspects of women empowerment in South Asia, particularly in India. The term empowerment refers to women's liberation from social-economic restraints of reliance. Women worldwide actively work as leaders and establish new dimensions in all fields. Yet in India, although women comprise around 50% of India's population, most stay economically dependent and in most Indian villages and towns, women are still denied fundamental education. After more than 75 years of independence as a country, we need to take a long-overdue, in-depth look at empowering women in India and how women empowerment should be a powerful tool for national development. This book aims to discuss the empowerment of women through examining the social and personal challenges faced by women as well as evaluating areas such as gender discrimination, education, opportunity and employment opportunity. *ICRMH 2019* Rena Latifa, Solicha Solicha, Ilmi
