**After Steve** Tripp Mickle,2022-05-03 From the New York Times Tripp Mickle the dramatic untold story inside Apple after the passing of Steve Jobs by following his top lieutenants Jony Ive the Chief Design Officer and Tim Cook the COO turned CEO and how the fading of the former and the rise of the latter led to Apple losing its soul Steve Jobs called Jony Ive his spiritual partner at Apple The London born genius was the second most powerful person at Apple and the creative force who most embodies Jobs s spirit the man who designed the products adopted by hundreds of millions the world over the iPod iPad MacBook Air the iMac G3 and the iPhone In the wake of his close collaborator s death the chief designer wrestled with grief and initially threw himself into his work designing the new Apple headquarters and the Watch before losing his motivation in a company increasingly devoted more to margins than to inspiration In many ways Cook was Ive s opposite The product of a small Alabama town he had risen through the ranks from the supply side of the company His gift was not the creation of new products Instead he had invented countless ways to maximize a margin squeezing some suppliers persuading others to build factories the size of cities to churn out more units He considered

inventory evil He knew how to make subordinates sweat with withering questions Jobs selected Cook as his successor and Cook oversaw a period of tremendous revenue growth that has lifted Apple s valuation to 2 trillion He built a commanding business in China and rapidly distinguished himself as a master politician who could forge global alliances and send the world s stock market into freefall with a single sentence Author Tripp Mickle spoke with more than 200 current and former Apple executives as well as figures key to this period of Apple s history including Trump administration officials and fashion luminaries such as Anna Wintour while writing After Steve His research shows the company s success came at a cost Apple lost its innovative spirit and has not designed a new category of device in years Ive s departure in 2019 marked a culmination in Apple s shift from a company of innovation to one of operational excellence and the price is a company that has lost its soul
