Historical Association (Great Britain)

Elizabethan Explorer:

Maritime Exploration in the Age of Discovery, 1415-1800 Ronald S. Love, 2006-09-30 Despite earlier naval expeditions undertaken for reasons of diplomacy or trade it wasn't until the early 1400s that European maritime explorers established sea routes through most of the globe's inhabited regions uniting a divided earth into a single system of navigation. From the early Portuguese and Spanish quests for gold and glory to later scientific explorations of land and culture, this new understanding of the world's geography created global trade, built empires, defined taste and alliances of power, and began the journey toward the cultural, political, and economic globalization in which we live today. Ronald Love's engaging narrative chapters guide the reader from Marco Polo's exploration of the Mongol empire to Ferdinand Magellan's circumnavigation of the globe, the search for a Northern Passage, Henry Hudson's voyage to Greenland, the discovery of Tahiti, the perils of scurvy, mutiny, and warring empires, and the eventual extension of Western influence into almost every corner of the globe.

Biographies and primary documents round out the work. **Adventurers of the Far North: A Chronicle of the Frozen Seas** Stephen Leacock, 2019-11-26 In *Adventurers of the Far North: A Chronicle of the Frozen Seas*, Stephen Leacock brilliantly intertwines humor and adventure, offering readers a vivid portrayal of the Arctic's allure and challenges. Rich with detailed accounts of exploration and survival, Leacock employs a captivating narrative style that blends anecdotal storytelling with satirical wit reminiscent of the era's romanticized views of pioneering expeditions. This book not only recounts the harrowing journeys of those who ventured into the icy unknown but also reflects on the broader human experience against nature's formidable backdrop, providing an insightful commentary on the age of exploration in the early 20th century. Stephen Leacock, a celebrated Canadian author, was not only known for his comedic essays but also had a profound curiosity about the world. His fascination with the Arctic's mysteries and the adventurers who sought to conquer its extremes stemmed from his own experiences and interests in geography and history. Leacock's unique perspective, cultivated through his academic pursuits and sharp observational skills, allows him to transcend mere storytelling, elevating the narrative into a reflection on human ambition and folly amidst nature's magnificence. This book is a must-read for those intrigued by exploration, the Arctic wilderness, and the interplay between humanity and the environment. Leacock's engaging prose will not only entertain but also provoke thought, making it a valuable addition to the library of anyone interested in the history of exploration and the inherent humor found in human endeavor. In this enriched edition, we have carefully created added value for your reading experience. A succinct Introduction situates the work's timeless appeal and themes. The Synopsis outlines the central plot, highlighting key developments without spoiling critical twists. A detailed Historical Context immerses you in the era's events and influences that shaped the writing. A thorough Analysis dissects symbols, motifs, and character arcs to unearth underlying meanings. Reflection questions prompt you to engage personally with the work's messages, connecting them to modern life. Hand-picked Memorable Quotes shine a spotlight on moments of literary brilliance. Interactive footnotes clarify unusual

 Maritime Far Northeast For more than three decades William W Fitzhugh and Wilfred E Richard have explored the Northeast
 s Atlantic corridor and its fascinating history habitat and culture The authors powerful personal essays and Richard s
 stunning photography transport readers to this vibrant region joining Smithsonian archaeological expeditions and trekking in
 vast and amazing terrain Following Fitzhugh and Richard s travels north from Maine to the Canadian Maritimes
 Newfoundland and northern Quebec then to Labrador Baffin and Ellesmere islands and Greenland we view incredible
 landscapes uncover human history and meet luminous personalities along the way Fully illustrated with 350 full color
 photographs Maine to Greenland is the first in depth treatment of the Northeast Atlantic corridor and essential for armchair
 travelers locals tourists or anyone who has journeyed there Today green technology climate change and the opening of the
 Arctic Ocean have transformed the Maritime Far Northeast from an icy frontier into a global resource zone and an
 increasingly integrated international crossroads In our rapidly converging world we have much to learn from the Maritime
 Far Northeast and how its variety of cultures have adapted to rather than changed their environments during the past ten
 thousand years Maine to Greenland is not only a complete account of the region s unique culture and environment but also a
 timely reminder that amidst the very real consequences of climate change the inhabitants of the Maritime Far Northeast can
 show us grounded and sustainable ways of living The Reader's Guides ... ,1928 **The First Book of the Great**
