The NGO Challenge for International Relations Theory William E. DeMars, Dennis Dijkzeul, 2015-02-11 It has become commonplace to observe the growing pervasiveness and impact of Non Governmental Organizations NGOs And yet the three central approaches in International Relations IR theory Liberalism Realism and Constructivism overlook or ignore the importance of NGOs both theoretically and politically Offering a timely reappraisal of NGOs and a parallel reappraisal of theory in IR the academic discipline entrusted with revealing and explaining world politics this book uses practice theory global governance and new institutionalism to theorize NGO accountability and analyze the history of NGOs This study uses evidence from empirical data from Europe Africa Latin America the Middle East and Asia and from studies that range across the issue areas of peacebuilding ethnic reconciliation and labor rights to show IR theory has often prejudged and misread the agency of NGOs Drawing together a group of leading international relations theorists this book explores the frontiers of new research on the role of such forces in world politics and is required reading for students NGO activists and policy makers

**Gender and Learning in Rwanda** Shirley Randell, Hilary Yerbury, Astrid Escrig-Pinol, 2021-09-28 This book presents an unparalleled mix of aspiration and achievement of feminist theory and practice It does not claim to be complete or final nor is it a snapshot of a single point in time It falls into two parts One part containing scholarly chapters written academics involved in developing and teaching in the innovative Master's program in Gender Culture and development

offered from 2011 at the Kigali Institute of Education in Rwanda. The second part contains statements written by students in the first cohort, most of which have been revised and updated. All the contributions are informed by a set of common experiences, but each writer presents her or his own perspective. This is most clearly evident in the short chapters written by the women who brought their diverse scholarly backgrounds together in their passion for the scholarly development of other women and men in an empowering feminist educational experience. This mix of experiences and the diversity of writings make the book a challenging read and an invaluable resource for anyone interested in research-based approaches to social change: the weaving of personal experience into scholarly reflections and in insights into leaders in working towards gender equality, a policy area which affects social relationships throughout a society, including at the most intimate level.

**Gender Equality in the EU and Ukraine** Agata Włodkowska, Maryana Prokop, Oleksandra Struk, 2025-06-27. This book provides a comprehensive analysis of gender equality and women's rights in Ukraine and the European Union, focusing on both political security and economic social dimensions. The first part examines European gender policy standards in Ukraine, feminist foreign policy, women's involvement in political protests, and the influential roles of First Ladies like Brigitte Macron, Agata Kornhauser Duda, and Olena Zelenska in promoting gender equality. It also explores gendered aspects of military service, the portrayal of female refugees, and the EU's response to sexual violence in the context of Russia's war against Ukraine. The second part addresses economic and social issues, including the intersection of gender equality with sustainable development, gender-responsive budgeting, and women's roles in business. It highlights women's contributions to nonprofit organizations and discusses the experiences of Ukrainian female students in Poland, as well as the status of single mothers in Ukraine and the UK. The study is relevant for policy formulation by institutions working on gender equality, foreign affairs, and human rights. It is also a valuable resource for universities, research institutes, think tanks, and civil society organizations involved in gender equality, human rights, and peacebuilding in Ukraine and Europe. The interdisciplinary nature of the publication, which integrates research from politics, law, sociology, international relations, economics, and pedagogy, makes it applicable to both general and specialized courses. It is dedicated to researchers and students in the social sciences, offering key insights for courses in gender studies, political science, international relations, human rights studies, eastern policy of EU development studies, and European integration, and providing a foundation for critical reflection on gender equality policies and EU integration.

**Gender-based Violence** Diane Gardsbane, 2010. SADC Gender Protocol 2013 Barometer, 2013-09-25. In August 2008, Heads of State of the Southern African Development Community adopted the ground-breaking SADC Protocol on Gender and Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. By the 2013 Heads of State summit, 13 countries had signed and 12 countries had ratified the SADC Gender Protocol. The Protocol is now in force. With two years to go, time is ticking to 2015, when governments need to have achieved 28 targets for the attainment of gender equality. In keeping with the Alliance slogan, 'Yes we must', this 2013 Barometer

provides a wealth of updated data against which progress will be measured by all those who cherish democracy in the region The SADC Gender and Development Index SGDI introduced in 2011 complements the Citizen Score Card CSC that has been running for five years to benchmark progress
