Churchill's Confidant Richard Steyn,2018-02-01 Brought together first as enemies in the Anglo Boer War and later as allies in the First World War the remarkable and often touching friendship between Winston Churchill and Jan Smuts is a rich study in contrasts In youth they occupied very different worlds Churchill the rambunctious and thrusting young aristocrat Smuts the aesthetic philosophical Cape farm boy who would go on to Cambridge Both were men of exceptional talents and achievements and between them the pair had to grapple with some of the twentieth century s most intractable issues not least of which the task of restoring peace and prosperity to Europe after two of mankind s bloodiest wars Drawing on a maze of archival and secondary sources including letters telegrams and the voluminous books written about both men Richard Steyn presents a fascinating account of two remarkable men in war and peace one the leader of the Empire the other the leader of a small fractious member of that Empire who nevertheless rose to global prominence **Banned History** Lynsey Calver,2022-08-11 Banned History is all the juicy bits of History which were excluded from your lessons at school It unashamedly probes into the darker side of some of Britain s most admired leaders as well as exploring the hateful and depraved nature of humanity across the last 5000 years Banned History answers questions which are deliberately avoided by the school curriculum due to the negative light Britain may be portrayed such as the real reason why Britain didn t bomb Auschwitz and how the Transatlantic Slave Trade came into being Topical issues such as whether Churchill was a racist and how homophobia developed and spread across the world are explored in depth Concepts which are too horrific to ever feature in the school curriculum are investigated to reveal how many years it takes for incest to wipe out a family what the most effective method of torture is and what kind of person tastes best Written in a bright and breezy tone Banned History is

A Converging Post-War European Discourse Thomas C.

Hoerber, 2014-12-24 This book explores the most important components and contributing factors to the European integration process during the 1950s It seeks to combine comparative politics and political history to examine core themes such as war experience national security military security economic security societal security and research and education in three major European countries i.e. France Germany and Britain It analyses the references to the ensuing European integration process in national parliamentary debates analyzing which national needs were thought European integration could cater to but also which national positions were seen as being compromised by a closer European commitment The development of a national position on European integration and in turn the evolution of European concepts are considered by using discourse theory on parliamentary debates in France Germany and Britain Parliamentary discourses are shown to be an ideal source for analyzing grand themes such as European integration because they cover all fundamental ideas they have to be public and open ended deliberations which in turn determined the position of each country towards European integration The great variety of positions reflected in the parliamentary discourse in particular those which did not prevail and which did not find their way into the commonly accepted historical storyline of European integration provide a greater comprehensiveness and a better understanding of the history of the European integration process

The Foundations of Europe Thomas

Hörber, 2007-12-18 Thomas Hörber analyses the building process of European integration He shows the parliamentary discourses of France Germany and Britain to be representative of the national position of these states towards the developing concept of Europe He covers all key events and developments of the time which had an impact on the European integration process and provides an explanation for the convergence of national discourses towards a common Europe This development was by no means a given and the analysis of parliamentary debates shows for the first time how vigorous the debates were on European integration in the 1950s and how despite setbacks notably the failure of the European Defence Community the discussion went in favour of integration
