P. Ruck, Danny Staples, 1994 The in depth and well researched material in The World of Classical Myth is presented against a background of history archaeology social custom religion topography and monuments. Part One Orientation defines mythology and portrays it as an evolving pattern constantly undergoing revision to keep pace with the evolution of the culture. Hence mythology offers an archaeology of a people's changing sense of identity. Part Two Transmutations portrays symbolic forms as eternal and archetypal never annihilated but merely changing appearance to meet the demands of changing times. Hence the analysis of the iconography and worship of the twelve Olympian deities paints a picture of their evolution into their Classical identities. Part Three The

Liminal Hero describes the two ways of telling a hero's story either the hero steps forward to found a new world and defeat the past or he steps back to become the fundament of his present world Part Four Liminal Heroines delineates the three versions of the heroine's identity maiden mother and witch and explores the portrayal of women in classical mythology Staples and Ruck follow these themes through the course of Classical Myth incorporating over 100 illustrations and maps integral to the presentation of the material The book also offers new perspectives on the goddesses and heroines of classical mythology and on the role of women in antiquity It is indeed a cause for some alarm that so important a subject as Greek Mythology has hitherto lacked an adequate primary textbook Ruck's book may well be the long awaited remedy I am impressed not only by his knowledge and organization but also by his patent concern for student needs Professor C Robert Phillips III Lehigh University
