Note Taking For Consecutive Interpreting:

Note-taking for Consecutive Interpreting Andrew Gillies, 2005-01-01 Aimed at students of conference interpreting whether on university and professional training courses or self learners Note Taking for Consecutive Interpreting A short Course offers future interpreters a step by step guide to the skill of note taking which forms an essential part of consecutive interpreting The system proposed made up of a range of tried and tested techniques is simple to learn consistent and efficient This is a book which can be read at one sitting but is designed to be worked through over a number of months Each chapter presents a technique together with examples tasks and exercises for the reader to complete true to the motto learning by doing The book uses English throughout explaining how and where to locate material for other languages It thus constitutes a course which offers student interpreters in any language combination a sound and adaptable base on which to build as they develop their skills It will also be a valuable resource for interpreter trainers looking for innovative ways of approaching this core element of interpreter competence

Teaching Translation and Interpreting 2 Cay Dollerup, Anne Lindegaard, Annette Lindegaard, 1994-01-01 Selected papers from this second conference on Translator and Interpreter Training With contributions from five continents the articles deal with global challenges taking into account the role of the translator in societies knit together by one tongue and those in which languages are the repositories of national cultures such as India The main merit of this volume is that it shows how translator training is tackled in the main translator training courses around the world what requirements are made on the students and what solutions are given The various approaches provide a wealth of translator training ideas Complementing the first volume of papers from the Language International conference this second volume deals with a wide variety of aspects in this interdisciplinary field of study dubbing subtitling simultaneous consecutive interpreting court interpreter training linguistic features cognitive aspects cultural aspects terminology and specialisation computeraided translation in practice translation procedures at the European Commission etc

The Interpreter's Resource Mary Phelan, 2001-06-12 The Interpreter's Resource provides a comprehensive overview of interpreting at the start of the twenty first century As well as explaining the different types of interpreting and their uses it contains a number of Codes of Ethics information on Community Interpreting around the world and detailed coverage of international organisations which employ interpreters

Courtroom Interpreting Marianne Mason, 2008-09-15 In Courtroom Interpreting Marianne Mason offers a new perspective in the study of courtroom interpreting through the exploration of cognitive and linguistic barriers that court interpreters face everyday and ultimately result in an interpreter's deviation from original linguistic content The quality of an interpreter's rendition plays a key role in how well a non English speaking defendant's legal rights are served Interpreters are expected to provide a faithful rendition of all semantic syntactic and pragmatic content regardless of how difficult the task may be at a cognitive level From a legal perspective this expectation may be sound as it disregards the cost associated with the interpreter having to account for a great deal of linguistic content

Mason proposes that if the quality of interpreters renditions is to improve and the rights of non English speaking minorities is to be better served the issue of cognitive overload needs to be addressed more effectively by the court interpreting community
