- 1 What is accounting? Answer: Accounting is the systematic process of recording, analysing, and reporting financial transactions of a business. It provides critical information for decision-making, ensuring that the financial performance and position of an organization are accurately represented.
- 2 What are the different types of accounting? Answer: The main types of accounting include:
 - Financial Accounting: Recording and reporting financial transactions to provide a clear financial picture to external stakeholders.
 - Management Accounting: Providing information to managers for decision-making, planning, and performance evaluation.
 - Cost Accounting: Analysing the cost of production and operations to control expenses.
 - Tax Accounting: Preparing tax returns and planning for future tax obligations.
- 3 What are the fundamental accounting principles? Answer: The fundamental accounting principles include:
 - Accrual Principle: Transactions are recorded when they occur, not necessarily when cash is exchanged.
 - Consistency Principle: The same accounting methods should be used from period to period.
 - Going Concern Principle: Assumes that the business will continue to operate indefinitely.
 - Matching Principle: Expenses should be matched with the revenues they help to generate.
 - Prudence Principle: Revenues and profits are not anticipated, but expenses and losses are provided for as soon as they are recognized.
- 4 What is the accounting equation? Answer: The accounting equation is: $Assets = Liabilities + Equity$. This equation forms the foundation of double-entry bookkeeping, where every transaction affects at least two accounts.
- 5 What is double-entry bookkeeping? Answer: Double-entry bookkeeping is an accounting system where each transaction is recorded in at least two accounts. This system ensures that the accounting equation $Assets = Liabilities + Equity$ always remains balanced. For every debit entry, there is a corresponding credit entry.
- 6 What are financial statements? Answer: Financial statements are formal records of the financial activities of a business. They include:
 - Balance Sheet: Shows the company's financial position at a specific point in time.
 - Income Statement: Reports the company's financial performance over a specific period.
 - Cash Flow Statement: Provides information about the company's cash inflows and outflows over a period.
- 7 What is depreciation? Answer: Depreciation is the process of allocating the cost of a tangible asset over its useful life. It accounts for the wear and tear, usage, and obsolescence of the asset. Common methods of depreciation include straight-line, declining balance, and units of production.
- 8 What is a trial balance? Answer: A trial balance is a report that lists the balances of all general ledger accounts at a particular point in time. It

is used to verify that the total debits equal the total credits ensuring that the accounting entries are accurate 9 What is working capital Answer Working capital is the difference between a company s current assets and current liabilities It measures a company s short term liquidity and operational efficiency 10 What is the difference between accounts payable and accounts receivable Answer Accounts Payable AP Amounts a company owes to suppliers or creditors for goods or services received Accounts Receivable AR Amounts a company is owed by customers for goods or services delivered 11 What is a ledger Answer A ledger is a book or collection of accounts in which account transactions are recorded Each account has its own page showing all the debits and credits affecting it and the account s balance 12 What is a journal entry Answer A journal entry is a record of a financial transaction in the accounting journal Each entry consists of the date of the transaction the accounts involved the amounts to be debited and credited and a brief description of the transaction 13 What is accrual accounting Answer Accrual accounting is a method where revenue and expenses are recorded when they are earned or incurred regardless of when cash is exchanged This provides a more accurate picture of a company s financial position and performance 14 What is a balance sheet Answer A balance sheet is a financial statement that shows a company s assets liabilities and equity at a specific point in time It provides a snapshot of the company s financial condition 15 What is an income statement Answer An income statement also known as a profit and loss statement reports a company s revenues expenses and profits or losses over a specific period It shows how revenue is transformed into net income These questions and answers should provide a good foundation for freshers preparing for an accounting interview
