Retrieval Difficulty

Retrieving Information
Free Recall

Retrieval of information from memory is easier when the information is presented in a list. This is because the information is more accessible when it is presented in a list.

Evaluation of Free Recall

Strengths
Free recall is a simple and easy method of testing memory. It allows for the measurement of the amount of information that can be recalled from memory.

Weaknesses
Free recall is a method that is not very reliable. It is often used in laboratory settings, but it is not a very natural way of remembering information.
