Institute ATI exams are commonly used in many nursing programs as a tool to help predict success. At a private Midwestern university a retrospective study was conducted to determine if a relationship existed between performance on the ATI exams and NCLEX RN success. Two graduating classes n 37 of pre licensure students were studied to determine the accuracy of predicting NCLEX RN success using the ATI exams. Data were collected on student performance on ten ATI exam scores: Test of Essential Academic Skills, TEAS test, Critical Thinking Composite, Fundamentals, Pharmacology, Pediatrics, Maternal Newborn, Mental Health, Medical Surgical, Community and the Registered Nurse RN Predictor Exam. A questionnaire was sent to faculty administering the ATI to examine the emphasis placed on the exams.
