The Confessions Saint Augustine, 2008-08-14 In this new translation the brilliant and impassioned descriptions of Augustine's colourful early life are conveyed to the English reader with accuracy and art Augustine tells of his wrestlings to master his sexual drive his rare ascent from a humble Algerian farm to the edge of the corridors of high power at the imperial court of Milan and his renunciation of secular ambition and marriage as he recovered the faith that his mother had taught him It was in a Milan garden that Augustine finally achieved the act of will to Christian conversion which he compared to a lazy man in bed finally deciding it is time to get up and face the day ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

**Bodily and Spiritual Hygiene in Medieval and Early Modern Literature** Albrecht Classen, 2017-03-20 While most people today take hygiene and medicine for granted they both have had their own history We can gain deep insights into the pre-modern world by studying its health care system its approaches to medicine and concept of hygiene Already the early Middle Ages witnessed great interest in bathing hot and cold swimming and good personal hygiene Medical activities grew over time but even early medieval monks were already great experts in treating the sick The contributions examine literary medical historical texts and images and probe the information we can glean from them The interdisciplinary approach of this volume makes it possible to view this large field in a complex and diversified manner taking into account both early medieval and early modern treatises on medicine water bathing and health Such a cultural historical perspective creates a most valuable bridge connecting literary and scientific documents under the umbrella of the history of mentality and history of everyday life The volume does not aim at idealizing the past but it definitely intends to deconstruct modern myths about the dirty and unhealthy Middle Ages and early modern age

*Cinderella Church: the Story of Early Christianity* R. John Kinkel, 2008-09-29 Christianity is the largest religion in the world with approximately 2.1 billion adherents Nonetheless when measured by the gold standard early Christian teachings and practice we find considerable slippage Two words describe current church problems and failures dull and devious At the highest levels of Catholic leadership for example we find scandals galore Top officials pilfer 40 million in Detroit to build national shrines Cardinals and bishops cover up priest sexual abuse and the pope most recently ignores high ranking bishops and cardinals pleas to allow Catholics to use condoms to prevent the spread of HIV AIDS That is the devious part At the lower end of the totem pole are priests and laity that just don't get it They say their prayers go to mass and have their baptisms they wonder why their kids don't go to church any more Not enough priests We will close the small churches and build a mega church One small city in Wisconsin pop 40,000 did this at the cost of 12 million Care to measure the cost of celibacy Pay pray and obey is the mantra and the young people don't like it Little wonder that only 1 in 3 Christians practice their faith to any appreciable degree and fail to pass religious traditions on to the next generation Instead of going after the lost sheep the pope says maybe we need a small dedicated remnant of believers Interesting strategy when you have driven the sheep away with questionable policies no women priests no married priests no condoms to fight AIDS

*(R)evolutionary Hope* Kathleen Bonnette, 2023-08-14 This book is for seekers for those with restless hearts It is especially for those who express their hope through the Catholic tradition but struggle with disillusionment and long for something more R evolutionary Hope invites readers to journey toward that More With theological reflection explored and interrogated through memoir this work reimagines what it means to be Catholic challenging readers to remain open to the grace that draws them from certainty to possibility beyond what is to what could be By infusing the theological tradition of St Augustine with the spirituality emerging in contemporary women of the church R evolutionary Hope invites readers to shift their paradigm from one of hierarchy to one of interconnection offering a theology of encounter that is rooted in tradition responsive to present realities and ever open to the future

*The Dove Descending* Jonathan Price, George Westhaver, 2025-07-31 Looking Beyond the Descent of the Dove a collection of eminent theologians poets priests and thinkers came together to consider the immersive irreducible vision of the Holy Spirit and His presence in Christ the Scriptures the Church the Saints the Father and the world The collected articles from the Pusey House Conference 2022 draw from a rich history of theological and literary figures from Augustine of Hippo to Hans Urs von Balthasar from John Milton to T S Eliot whilst continually centring vigorous and incisive

scriptural analysis Crystalising around the third article of the creed the communion of the Holy Spirit these articles explore the centrality of the sacraments the necessity of yielding any possession of the spirit and the recognition of Christ in the Holy Spirit and through Him in the other These papers published here for the first time are a crucial read for any academic theologian or curious Christian illuminating the complexity in envisioning the Spirit alongside the hope for the future His presence represents

**Knowledge and Evolution** Michael Chaberek,2021-08-31 The question of the origins of the universe is probably one of the most dwelled upon and argued about over the last couple of centuries Ever since Charles Darwin proposed his theory evolutionists and creationists want to settle the issue on their sides But science did not stop at Darwin s time It progressed enormously creating significant problems for Darwinian explanations Is there a better answer than the dominant neo Darwinian synthesis Even more fundamental is the question of whether natural science by itself can explain the origins of nature What are the limits of science and where should we turn to philosophy and theology How do these three domains science philosophy and theology relate when addressing the question of origins Theistic evolution the idea of God using evolution as a means of creating the universe faces problems from both classic Christian theology as well as classic metaphysics Today things do not look good for the dominant views The time has come to propose a new faith and science synthesis one that offers a serious approach to the Bible on the one hand and an honest look at biological findings on the other This book sets a path to such a new synthesis

**The New Atheists** Tina Beattie,2007 The New Atheists argues that the threat of religious fanaticism is mirrored by a no less virulent and ignorant secular fanaticism which has taken hold of the intellectual classes

The Good, the Bad & the Moral Dilemma Gillian Rosemary Evans,2007 How can we live consistently and well This book is a practical manual that seeks to make the knotty questions of life more manageable
