**Bachour** Antonio Bachour,2014      **Muslim Bodies** Susanne Kurz,Claudia Preckel,Stefan Reichmuth,2016 Der Sammelband ist aus einem Panel beim Deutschen Orientalistentag in Marburg 2010 hervorgegangen und beleuchtet aus unterschiedlichen Perspektiven Körpererfahrungen kulturellen Diskurse und Techniken in islamisch geprägten Kulturen der Vergangenheit und Gegenwart Leitgedanke ist dabei die Frage danach wie Individuen ihr Wissen über Körper Sexualität im sozialen Feld konstruieren und welche Deutungssysteme z.B. Islam, Graeco-islamische Medizin dabei wirksam werden. The present volume product of a conference panel at the German Orientalists Conference in Marburg 2010 aims at throwing light on the experiences, discourses and body techniques prevailing in Muslim bodily culture. It combines historical with contemporary case studies and explores the individual and collective patterns of knowledge construction related to body and sexuality in a social field where different and sometimes conflicting knowledge systems e.g. Islam, Graeco-Islamic Medicine can be found at work.

Entangled Itineraries Pamela H. Smith,2019-05-22 Trade flowed across Eurasia around the Indian Ocean and over the Mediterranean for millennia but in the early modern period larger parts of the globe became connected through these established trade routes. Knowledge embodied in various people, materials, texts, objects and practices also moved and came together along these routes in hubs of exchange where different social and cultural groups intersected and interacted. Entangled Itineraries traces this movement of knowledge across the Eurasian continent from the early years of the Common Era to the nineteenth century following local goods, techniques, tools and writings as they traveled and transformed into new material and intellectual objects and ways of knowing. Focusing on nonlinear trajectories of knowledge in motion, this volume follows itineraries that weaved in and out of busy, crowded cosmopolitan cities in China in the trade hubs of Kucha and Malacca and in centers of Arabic scholarship such as Rey and Baghdad which resonated in Bursa, Assam and even as far as southern France. Contributors explore the many ways in which materials, practices and knowledge systems were transformed and codified as they converged, swelled at times, disappeared and often reemerged anew.

Enterprise Resource Planning: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2013-06-30 The design, development and use of suitable enterprise resource planning systems continue to play a significant role in ever-evolving business needs and environments. Enterprise Resource Planning: Concepts, Methodologies, Tools and Applications presents research on the progress of ERP systems and their impact on changing business needs and evolving technology.
