Studio della Boxe Bagua Sun Lutang, Luigi Zanini, 2020-02-14T00:00:00+01:00 Intessuto di precisi riferimenti alchemici e filosofici lo Studio della Boxe Bagua di Sun Lutang uno dei testi pi affascinanti e il primo a essere stato scritto su questa originale e complessa arte marziale Composto da un grande combattente della vecchia generazione che incarnava l ideale del letterato guerriero dotato di un eccellente cultura e che fu portato a modello dei giovani per rilanciare lo spirito nazionalistico in un difficile momento storico della Cina del primo Novecento il libro ha dato un grande impulso alla ripresa della pubblicazione di manuali sulle arti marziali e ha creato le basi per la cultura di queste discipline cos come le intendiamo oggi in Occidente Il suo messaggio profondo nel modo quanto semplice nella prassi la maestria si racchiude in una pratica costante e in uno spirito aperto alla crescita

Socio-Legal Struggles for Indigenous Self-Determination in Latin America Roger Merino, 2021-05-16 This book is an interdisciplinary study of struggles for indigenous self determination and the recognition of indigenous territorial rights in Latin America Studies of indigenous peoples opposition to extractive industries have tended to focus on its economic political or social aspects as if these were discrete dimensions of the conflict In contrast this book offers a comprehensive and interdisciplinary understanding of the tensions between indigenous peoples territorial rights and the governance of extractive industries and related state developmental policies Analysing the contentious process pushed by indigenous peoples for implementing pluri nationality against extractive projects and pro extractive policies the book compares the struggle for territorial rights in Bolivia Ecuador and Peru Centrally it argues that indigenous territorial defenses against the extractive industries articulate a politics of self determination that challenges coloniality as the foundation of the nation state The resource governance of the nation state assumes that indigenous peoples must be integrated or assimilated within multicultural arrangements as ethnic minorities with proprietary entitlements so they can participate in the benefits of development As the struggle for indigenous self determination in Latin America maintains that indigenous peoples must not be considered as ethnic communities with property rights but as nations with territorial rights this book argues that it offers a radical re imagination of politics development and constitutional arrangements Drawing on detailed case studies this book s multidisciplinary account of indigenous movements in Latin America will appeal to those with relevant interests in politics law sociology and development studies

Postcolonial Governmentalities Terri-Anne Teo,, Elisa Wynne-Hughes, 2020-02-18 This edited volume asks how governmentality and postcolonial approaches can be brought together to help us better understand specific sites and practices of contemporary postcolonial governance The framework approach was inspired by the recent use of governmentality approaches that emphasize how governance functions not solely through states but through multiple tactics and means that regulate the conduct of individuals and institutions through both freedom and constraint A postcolonial approach to governance exposes the role of postcolonial sites and practices in shaping governance and the inequalities embedded within it insofar as standards of conduct determine which subjects are privileged

and excluded Postcolonial perspectives show how governance can be both productive and repressive functioning to impose a fixed code of conduct that objectifies gendered racialized sexualized others as part of its project of improvement In discussing governance we must also consider how power is negotiated and challenged through forms of resistance and counter conduct This volume argues that we need to incorporate postcolonial theories and carefully examine postcolonial practices and sites to understand how contemporary governance shapes various transnational inequalities and social divisions The authors in this edited volume illustrate the value of postcolonial governance as a conceptual framework through empirical examples from Asia Australia Africa and Europe These cases unpack practices of governance operating within complex political landscapes
