**Health Promotion in the Universities and Other Educational Settings** Miguel Corbí, Antoni Aguilo, Carmen Gallardo Pino, Mario Del Líbano, Carlos Emanuel Rodriguez-Diaz, Hiram V. Arroyo Acevedo, 2025-09-17 The promotion of health in universities is of great importance as it allows for the encouragement of healthy lifestyles and the prevention of diseases among students teaching staff and administrative personnel The university is a conducive environment for the promotion of healthy habits since firstly it is usually the moment when the students make decisions under their responsibility and secondly it is a place where academic sports and social activities take place so it is also an ideal moment to promote changes that can be transferred to society and the rest of the individual's life Health promotion in universities can cover several areas such as healthy eating physical exercise prevention of addictions emotional and social mental health among others It can also involve the entire university community from students to administrative and teaching staff In the case of students it is essential as it is a period of change and habit formation and the fact that they will be the future decision makers of society

*Mental Health Self-Help* Louis D. Brown, Scott Wituk, 2010-08-05 Building on earlier patient empowerment movements consumer and advocate driven mental health self help MSHS initiatives currently outnumber traditional mental health organizations At the same time this apparent success raises significant questions about their short term efficacy and their value to lasting recovery Mental Health Self Help assembles the state of the evidence on the effectiveness of MSHS beginning with the individual and larger social factors behind the expansion of consumer directed services Clearly organized and accessibly written the book traces the development and evolution of MSHS as both alternative and adjunct to traditional mental health structures offers research based perspectives on the various forms of MSHS and identifies potential areas for consumer initiatives to work with and help improve mental health systems Contributors weigh strengths and limitations raise research and methodology questions and discuss funding and training issues to give readers a deeper understanding of the field and an informed look at its future impact on mental health treatment Individual chapters cover the spectrum of contemporary self help initiatives in mental health including Online mutual aid groups Consumer run drop in centers Family and caregiver groups Certified peer support specialists Consumer advocacy initiatives Technical assistance organizations Professional self help collaborations Mental Health Self Help is a bedrock guide to an increasingly influential aspect of the mental health landscape Researchers studying these initiatives from a variety of fields including community and clinical psychology and public health as well as clinicians counselors social workers case managers and policymakers will find it an indispensable reference
