Wh-Questions Reading Comprehension

A WONDERFUL DAY AT THE BEACH

Last Saturday, Sarah and her friends decided to spend the day at the beach. They woke up early, packed their bags with sunscreen, towels, snacks, and drinks, and took the bus to the coast. The weather was perfect — sunny with a gentle breeze. When they arrived, they found a great spot on the sand, set up their umbrellas, and laid out their towels. The boys started playing volleyball, and the girls relaxed under the shade of a big tree, enjoying the cool breeze.

Around noon, they stopped to eat their packed lunch, which included sandwiches, fruit, and juice. After eating, they had fun building a large sandcastle together. They made tall towers and a moat around the castle. In the afternoon, Sarah went for a swim in the ocean while her friends stayed on the beach to read books or play cards. Everyone was having a great time.

As the day came to an end, Sarah and her friends took a walk along the beach, watching the sunset. The sky turned beautiful shades of orange and pink. Before leaving, they took a group photo to remember the day. Then, they packed up and headed back to the bus stop to go home.

1. What did Sarah and her friends do when they first arrived at the beach?

2. What did they eat for lunch at the beach?

3. Why did they sit under a tree after setting up their towels?

4. What did Sarah do in the afternoon while the others stayed on the beach?

5. What did they do before leaving the beach at the end of the day?

Reading Comprehension World Series 2025

Michael Hoelscher

Reading Comprehension World Series 2025:

Edumetrics Nadir Altinok, Claude Diebolt, 2026-01-01 This book introduces edumetrics a rigorous interdisciplinary framework for measuring learning outcomes over time and across space Based on Lord Kelvin s maxim that to measure is to know edumetrics redefines education as an empirical science that integrates economics psychology and social science to quantify cognitive and non cognitive competencies By harmonizing data from over 120 countries spanning half a century the book transforms fragmented indicators into coherent measures of learning quality and equity It critiques the limitations of traditional human capital theory and challenges the use of years of schooling as a proxy for skill Through econometric analysis historical inquiry and global datasets including Learning Adjusted Years of Schooling it reveals that educational structures not just resources shape productivity adaptability and social cohesion At its core the book addresses the paradox of why rising investments in schooling have not yielded proportional gains in learning With its integration of theory data and historical perspective it serves as both a methodological blueprint and a call to rethink how we define measure and value learning in the twenty first century [Catalog of Copyright Entries. Race, Class, and Affirmative Action Julie J. Park,2026-01-21 A rich nuanced examination of the effects of the 2023 Supreme Court ruling restricting race conscious college admissions policies and food for thought for future transformation In *Race Class and Affirmative Action* Julie J Park offers deft analysis of the changes to college admissions and campus life since the US Supreme Court ruled to restrict race conscious policies in two 2023 cases *Students for Fair Admissions SFFA v Harvard* and *SFFA v the University of North Carolina Chapel Hill* Park offers clear explanations of the rulings their historical context and their implications for higher education policy She highlights how the Supreme Court still allows campuses to consider the role of race in students experiences and that numerous tools to advance diversity in admissions remain In this lively timely work Park points out the swift and stark post ruling shifts in campus demographics and grapples with questions of how to push toward a more equitable admissions system She investigates alternative initiatives such as test optional and test free admissions percent plans and others weighing their merits and drawbacks She also examines inequality affecting college applications themselves and offers ideas for reform Integrating up to the minute research on admissions standardized testing enrollment management and the campus racial climate Park recommends actions that can advance equity oriented access to higher education despite the current restrictions on race conscious admissions Park ends with a call to campus leaders policymakers and practitioners to reimagine selective college admissions and attendance and offers a glimpse of what the future could hold
