,1907    *Streaming and Copyright Law* Lasantha Ariyaratna,2022-09-05 This book examines the challenges posed to  
Australian copyright law by streaming from the end user perspective It compares the Australian position with the European  
Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically  
examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues  
for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital  
content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet  
Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law  
because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas  
between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is  
uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of  
embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end  
users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the  
defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When  
considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to  
access a website that contains infringing digital content even if they lack any knowledge about the content s infringing  
nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through  
streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe  
lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming  
websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital  
content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users  
access to digital content This is because the principles of proportionality and public interest have been given less attention  
when determining website blocking injunctions    **American Sugar Industry** ,1920    **Visual Education** University of
