**Cae Writing Masterclass (Parts 1 & 2) Cambridge English Advanced Writing** Marc Roche,2018-10 CAE Writing Masterclass Parts 1 2 Cambridge English Advanced Writing from the CAE Cambridge Advanced series is a full self study CAE writing course for students of Advanced English It is based on years of classroom experience and contains CAE writing exercises and secret exam strategies to improve students general English writing skills essay writing skills email writing skills report writing skills review writing and proposal writing The writing part of the Cambridge CAE exam is often the most intimidating for many Advanced English students CAE Writing Masterclass will give you the skills tools knowledge and practice needed to get excellent marks in this part of the exam This book is a self study step by step manual on how to be brilliant in the writing test It will prepare you for all the types of questions that you might have to answer and shows you exactly what examiners are looking for when they mark your writing CAE Writing Masterclass carefully guides you through answering exam type questions and builds exam specific grammar skills so that you are as confident as possible on the day of the exam      The Grammar and Lexis of Conversational Informal English in Advanced Textbooks María Dolores Fernández Gavela,2015-04-01 The Grammar and Lexis of Conversational Informal English in Advanced Textbooks defends the view that the acquisition of conversational English depends highly on the kind of materials available to L2 learners The need to acquire a proficient competence in English is growing exponentially in an incessantly demanding society but it is the oral skill and more specifically the ability to communicate in everyday situations that learners are calling for The current learning process nonetheless is not particularly effective as is shown in the data collected by the Eurobarometer and published in June 2012 which shows that only 38% of the Europeans surveyed were able to maintain a conversation in English although 67% believed it to be the most useful language to learn for personal development The present study supports the idea expressed

in The Common European Framework of Reference for Languages which states that a language is learnt reactively following the instructions and carrying out the activities prescribed for them by teachers and by textbooks 2001 141 Consequently these materials should reflect the everyday use of informal discourse and allow learners to analyse understand and interpret the different underlying messages conveyed by means of lexico syntactic as well as paralinguistic elements The book is divided into seven chapters in which various different linguistic aspects of conversation are dealt with In the opening chapters spoken language is presented and approached as a multidimensional entity particularly as the sum of lexico syntactic and socio linguistic elements The following chapters provide a description of the main characteristics of conversational English based on corpus informed grammars and publications The final chapter analyses twenty ESL textbooks in order to determine how corpus data has influenced the materials designed for the acquisition of conversational discourse
