Axis Allies Global 1942 Rules Set:

Axis Rule in Occupied Europe Raphael Lemkin, 2014 In this study Polish emigre Raphael Lemkin 1900-1959 coined the term genocide and defined it as a subject of international law Provided by publisher *World War II* Evan Mawdsley, 2020-04-30 This is a revised and updated edition of Evan Mawdsley's acclaimed global history of World War II Beginning with the outbreak of the Sino-Japanese War Evan Mawdsley shows how the war's origins lay in a conflict between the old international order and the new and traces its globalisation as it swept through Asia Europe and the Middle East The primary focus is on the war's military and strategic history though also examines the political economic ideological and cultural factors which influenced the course of events The war's consequences are examined too not only in terms of the defeat of the Axis but also of the break up of colonial empires and the beginning of the Cold War Accessibly written and well illustrated with maps and photographs the book also includes insightful short studies of the figures events and battles that shaped the war as well as fully updated guides to further reading *The United States and the End of British Colonial Rule in Africa, 1941-1968* James P. Hubbard, 2014-01-10 At the end of World War II Britain possessed a vast African empire encompassing nearly 27 million square miles about 10 times larger than Britain itself But by 1965 only three small African territories remained under British control all of which would become independent before the end of 1968 This book examines the swift demise of Britain's African empire looking particularly at the role played by the United States in bringing the empire to an end It reveals how the United States was anti-colonial without being actively pro-independence concluding that the country's policies and actions combined with its postwar dominance directly and indirectly contributed to the political economic and social transformation of Africa *Congressional Record* United States. Congress, 1968 The *Congressional Record* is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The *Congressional Record* began publication in 1873 Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States 1789-1824* the *Register of Debates in Congress 1824-1837* and the *Congressional Globe 1833-1873* **Arsenal of World War II** Paul A. C. Koistinen, 2004 Prolific munitions production keyed America's triumph in World War II but so did the complex economic controls needed to sustain that production Artillery tanks planes ships trucks and weaponry of every kind were constantly demanded by the military and readily supplied by American business While that relationship was remarkably successful in helping the U.S. win the war it also raised troubling issues about wartime economies that have never been fully resolved Paul Koistinen's fourth installment of a monumental five-volume series on the political economy of American warfare focuses on the mobilization of national resources for a truly global war Koistinen comprehensively analyzes all relevant aspects of the World War II economy from 1940 through 1945 describing the nation's struggle to establish effective control over industrial supply and military demand and revealing the growing partnership between the corporate community and the armed services Koistinen traces the

evolution of federal agencies mobilizing for war including the National Defense Advisory Commission the Office of Production Management and the Supply Priorities and Allocation Board and then focuses on the work of the War Production Board from 1942 1945 As the war progressed the WPB and related agencies oversaw the military s supply and procurement systems stabilized the economy while financing the war closely monitored labor relations and controlled the shipping and rationing of fuel and food In chronicling American mobilization Koistinen reveals how representatives of industry and the armed services expanded upon their growing prewar ties to shape policies for harnessing the economy and how federal agencies were subsequently riven with dissension as New Deal reformers and anti New Deal corporate elements battled for control over mobilization itself As the armed services emerged as the principal customers of a command economy the military industrial nexus consolidated its power and ultimately succeeded in bending the reformers to its will The product of exhaustive archival research Arsenal of World War II shows that mobilization meant more than simply harnessing the economy for war it also involved struggles for power and position among a great many interest groups and ideologies Nearly two decades in the making it provides an ambitious and enormously insightful overview of the emergence of the military industrial economy one that still resonates today as America continues to wage wars around the globe The Axis Occupation of Europe Winston Ramsey,Gail Ramsey,2018-06-30 Dr Raphael Lemkin was a Polish migr and the person who coined the term genocide during his study of international law concerning crimes against humanity which he began in 1933 the year that the Nazis assumed power in Germany His much acclaimed work Axis Rule in Occupied Europe was published in 1944 and extracts from it now form the framework on which we have built this then and now coverage of the occupation of Czechoslovakia Memel Albania Danzig Poland Denmark Norway Luxembourg the Netherlands Belgium France Monaco the Channel Islands Greece Yugoslavia the Baltic states the Soviet Union Romania Italy and Hungary Individual chapters also cover the most serious crimes committed by the occupier the destruction of whole villages in Czechoslovakia France the Netherlands and Greece and the genocidal acts carried out in Italy Greece Belgium although nothing can equal the wholesale slaughter enacted in the Balkans and the USSR It has been estimated that the Axis occupation of Europe cost between 20 and 25 million civilian lives apart from the deaths of at least 16 million servicemen and women who paid the ultimate price in trying to put Europe back together again It is a debt that can never be repaid The Usborne Illustrated Atlas of World History Lisa Miles,1995
