Hope and Contemporary Israeli Peace Movements Liv Halperin, 2025-12-02 This book investigates and compares two contemporary Israeli peace movements through the angle of collective emotions and specifically of hope Drawing on empirical qualitative research combining interviews with Jewish and Arab Palestinian activists and ethnographic work the work provides unique documentation of the birth and development of Standing Together a mixed gender peace movement and Women Wage Peace a women s peace movement It explores the meaning of hope for Israeli peace activists and shows the concrete efforts that both movements undertake to trigger hope as part of an intersectional peace politics and of a non partisan women s peace politics respectively The book also engages with the post October 2023 developments in the Middle East showing how both peace movements now followed by others in the Israeli peace camp continue to invest in their politics of hope amid devastation fatigue and fear Offering a gendered typology of hope related emotion work useful beyond the cases at hand the book proposes that collective hope based action combined with other emotions might be powerful in all contexts of despair and protracted conflicts This book will be of interest to students of peace and conflict studies social and peace movements gender studies non violent resistance international relations and Israel Palestine Middle East

Overcoming Trumpism Larry N. Gerston, 2026-03-19 Defining Trumpism as an ideology that preceded Trump s election and will outlast his political career this book explores solutions to problems that have long plagued contemporary American democracy

Digital Wisdom Richard Lachman, 2026-02-27 Inviting us to an active role in reshaping technology is at the core of Digital Wisdom Searching for Agency in the Age of AI The book helps you understand more about the underlying issues of AI social media and data analytics so we all can pick a better path together This book explores how fundamental aspects of today s digital technology intersect with our rights and assumptions about private life individual autonomy and social boundaries This exploration begins with a discussion about what all that data collected about us is for and how companies governments and ourselves as people who also work for those companies and governments might want to alter the dynamic The book looks at our changing sense of privacy and how data is not just recorded but fused correlated shared and acted upon in ways that seem fundamentally different than our laws or principles once assumed It talks about technology s role in making us seem to be more divided than ever affecting our politics our pastimes and even our basic ability to connect with one another Examining ways in which technology is used to change our minds sometimes for our benefit and sometimes to our detriment the book breaks down the increasing use of algorithms that impact our everyday lives so we can build a more ethical practice of digital technology This exploration about our digital future invites us to instead build a practice of Digital Wisdom It makes an argument for how we can use this wisdom to live more fully in the ways we want with the features of technological advancement we choose It suggests how our educational systems industries and governments could shift to better support Digital Wisdom These ideas are not exhaustive Digital Wisdom is a mindset rather than a simple

set of steps to follow Applying this mindset is going to take creativity from all of us but in the end the Digital Wisdom mindset will guide us in taking concrete steps towards a more responsible digital future *Sport Public Relations* G. Clayton Stoldt, Stephen W. Dittmore, Mike Ross, 2026-02-16 Now in its fourth edition Sport Public Relations provides students educators and professionals with the foundational knowledge and modern strategies needed to navigate the evolving world of sport public relations
