Blindsight Matt Johnson, Prince Ghuman, 2020-05-19 Ever notice that all watch ads show 10 10 as the time Or that all fast food restaurants use red or yellow in their logos Or that certain stores are always having a sale You may not be aware of these details yet they ve been influencing you all along Every time you purchase swipe or click marketers are able to more accurately predict your behavior These days brands know more about you than you know about yourself

Blindsight is here to change that With eye opening science engaging stories and fascinating real world examples neuroscientist Matt Johnson and marketer Prince Ghuman dive deep into the surprising relationship between brains and brands In *Blindsight* they showcase how marketing taps every aspect of our mental lives covering the neuroscience of pain and pleasure emotion and logic fear and safety attention and addiction and much more We like to think of ourselves as independent actors in control of our decisions but the truth is far more complicated *Blindsight* will give you the ability to see the unseeable when it comes to marketing so that you can consume on your own terms On the surface you will learn how the brain works and how brands design for it But peel back a layer and you ll find a sharper image of your psychology reflected in your consumer behavior This book will change the way you view not just branding but yourself too

Young-Girls in Echoland Andrea Jonsson, Heather Warren-Crow, 2021-11-16 Who s worse the Young Girl or the Man Child Tiqqun s Preliminary Materials for a Theory of the Young Girl is a controversial work of anticapitalist philosophy that has attracted musicians playwrights feminist theorists and men s rights activists since its publication in 1999 More than twenty years after its publication the international reverberation of *Young Girls in Echoland* Theorizing Tiqqun is a guide to this ongoing postdigital conversation engaging with artworks and textual criticism provoked by Tiqqun s audacious arguably misogynistic textual voice Heather Warren Crow and Andrea Jonsson show how Tiqqun s polarizing figure has grown and matured but also stayed unapologetically girly in the works of artists and scholars discussed here

Rethinking the myth of Echo and Narcissus by performing a different kind of listening they take us on a journey from VSCO girls to basic bitches to vampires With an ear for the sound of Tiqqun s polemic and its ensemble of Anglophone and Francophone rejoinders Young Girls in Echoland offers a model for analyzing the call and response of pop philosophy and for hearing the affective rhythms of communicative capitalism Forerunners Ideas First is a thought in process series of breakthrough digital publications Written between fresh ideas and finished books Forerunners draws on scholarly work initiated in notable blogs social media conference plenaries journal articles and the synergy of academic exchange This is gray literature publishing where intense thinking change and speculation take place in scholarship Debates for the Digital Age Danielle Sarver Coombs,Simon Collister,2015-11-23 By evaluating the Internet s impact on key cultural issues of the day this book provides a comprehensive overview of the seismic technological and cultural shifts the Internet has created in contemporary society Books about Internet culture usually focus on the people places sites and memes that constitute the cutting edge at the time the book is written That approach alas renders such volumes quickly obsolete This provocative work on the other hand focuses on overarching themes that will remain relevant for the long term The insights it shares will highlight the tremendous impact of the Internet on modern civilization and individual lives well after specific players and sites have fallen out of favor Content is presented in two volumes The first emphasizes the positive impact of Internet culture for example 24 hour access to information music books merchandise employment opportunities and even romance The second discusses the Internet s darker consequences such as a demand for instant news that often pushes journalists to prioritize being first over being right online scams and invasions of privacy that can affect anyone who banks shops pays bills or posts online Readers of the set will clearly understand how the Internet has revolutionized communications and redefined human interaction coming away with a unique appreciation of the realities of today s digital world for better and for worse
