Special Edition Using Microsoft Office Excel 2007 Bill Jelen, 2002-12-05 THE ONLY EXCEL BOOK YOU NEED We crafted this book to grow with you providing the reference material you need as you move toward Excel proficiency and use of more advanced features If you buy only one book on Excel Special Edition Using Microsoft Office Excel 2007 is the book you need Does your life play out in a spreadsheet Do numbers in columns and rows make or break you in the work world Tired of having numbers kicked in your face by other Excel power users who make your modest spreadsheets look paltry compared to their fancy charts and pivot tables If you answered yes to any of these questions Special Edition Using Microsoft Office Excel 2007 is the book that will make it all better Learn quickly and efficiently from a true Excel master using the tried and true Special Edition Using formula for success Here you will find information that is undocumented elsewhere even in Microsoft's own Help systems You will learn from finely crafted real life examples built by an author who lives and dies by the integrity of his spreadsheets Excel's backbone is its formulas and functions Master those and you will master your spreadsheets Special Edition Using Microsoft Office Excel 2007 provides more down and dirty help with your formulas and functions than you will find in any other book See how it is done in real life Don't settle for lame pivot table and chart examples found in other books This book provides beautifully detailed examples that not only show you how it should be done but how to be the local worksheet hero

The Encyclicon - Volume 4 Thomas L. Saaty, Madjid Tavana, 2021-03-02 Volume 4 has a very large number of more recent case studies and takes a closer look to the building process of the Benefits Opportunities Costs and Risks models using AHP top level networks rating of the B O C R with the help of the strategic criteria and ANP bottom level networks The Encyclicon is an advanced dictionary of structures used to represent complex decisions The first dictionary of hierarchic decision making was the Hierarchon Since hierarchies are a special case of networks the examples given here can be regarded as more general and complete representation of decision making In particular except for a group of market share examples they all involve decisions made by considering Benefits B Opportunities O Costs C and Risks R They also involve a synthesis of these BOCR merits into a single overall best outcome for a decision This is the first volume of the series of Encyclicon books Each of the books contains different models from different years collected by a different author along with Thomas L Saaty and although all books tackle similar topics there are different models and different approaches on how to summarize and represent models for general use These books are meant as a reference guide when you try to set up ANP or AHP complex decision models The case studies in the books are linked to online reference material related to that which often include the super decision model power point presentation and the original report of the case
