Retooling Study Abroad Carmen Granda, 2023-11-02 Study abroad is the ideal option for world language students to immerse themselves in the target language and culture. However, circumstances beyond control may make travel challenging, even impossible. Technology has the potential to engage students and provide an opportunity for linguistic and cultural immersion from home. In addition to immersing students in the target language and culture, Carmen Granda shows that technology can be implemented in all world language courses to foster connections and comparisons and, most importantly, create community in and outside of the classroom. She demonstrates that digital tools have the power to make language learning inclusive of and accessible to all students, fulfilling diversity, equity, and inclusion (DEI) goals of higher education.

Trees, forests and land use in drylands: the first global assessment Food and Agriculture Organization of the United Nations, 2019-11-29 Drylands cover 41 percent of the Earth's land surface. This publication presents the results of the first global assessment of trees, forests, and land use in these lands. The assessment breaks new methodological ground; it relies on the visual interpretation of freely available satellite images carried out by more than 200 experts in a series of regional workshops. Using a tool called Open Foris collect Earth developed by FAO in collaboration with Google, participants gathered and analysed information for more than 200,000 sample plots worldwide. For each region, the report summarizes the distribution of forests, other wooded land, and other land uses, including grasslands, croplands, built-up areas, and barren land, across all drylands and by aridity zone. It also estimates tree canopy cover, shrub cover, forest type, and presence of trees outside forest. Indicating that the global drylands contain more than one quarter of the world's forest area and that trees are present on 31 percent of the world's dryland area, the report provides a baseline for future monitoring and will support countries in their efforts to identify appropriate investments for the restoration and sustainable management of drylands. **CQ Weekly**, 2010

Scott Galloway The hugely popular New York Times Your Money columnist and author of the bestselling *The Opposite of Spoiled* offers a deeply reported and emotionally honest approach to the biggest financial decision families will ever make what to pay for college a decision made even more confusing because of the Covid 19 pandemic Sending a teenager to a flagship state university for four years of on campus living costs more than 100 000 in many parts of the United States Meanwhile many families of freshmen attending selective private colleges will spend triple over 300 000 With the same passion smarts and humor that infuse his personal finance column Ron Lieber offers a much needed roadmap to help families navigate this difficult and often confusing journey Lieber begins by explaining who pays what and why and how the financial aid system got so complicated He also pulls the curtain back on merit aid an entirely new form of discounting that most colleges now use to compete with peers While price is essential value is paramount So what is worth paying extra for and how do you know when it exists in abundance at any particular school Is a small college better than a big one Who actually does the teaching Given that every college claims to have reinvented its career center who should we actually believe He asks the tough questions of college presidents and financial aid gatekeepers that parents don t know or are afraid to ask and summarizes the research about what matters and what doesn t Finally Lieber calmly walks families through the process of setting financial goals explaining the system to their children and figuring out the right ways to save borrow and bargain for a better deal *The Price You Pay for College* gives parents the clarity they need to make informed choices and helps restore the joy and wonder the college experience is supposed to represent You're the Director - 2nd Ed ,2015-07-01
