How to make SSD Solution Composition ?:

Preparation of ssd solution composition from constituent ingredients

It is common practice in established laboratories to make an ssd solution directly from its constituent ingredients. There are three cases in practical calculation:

Case 1: amount of solvent volume is given.

Case 2: amount of solute mass is given.

Case 3: amount of final solution volume is given.

In the following equations diagram, A is solvent, B is solute, and C is concentration. Solute volume contribution is considered through ideal solution model which makes it the main active elements for anti breeze currency cleaning [black money].
