## **Experiencing Intercultural Communication 5th Edition:**

**The SAGE Encyclopedia of Intercultural Competence** Janet M. Bennett, 2015-03-23 In 1980 SAGE published Geert Hofstede's *Culture's Consequences*. It opens with a quote from Blaise Pascal: "There are truths on this side of the Pyrenees that are falsehoods on the other." The book became a classic, one of the most cited sources in the Social Science Citation Index and subsequently appeared in a second edition in 2001. This new SAGE Encyclopedia of Intercultural Competence picks up on themes explored in that book. Cultural competence refers to the set of attitudes, practices, and policies that enables a person or agency to work well with people from differing cultural groups. Other related terms include cultural sensitivity, transcultural skills, diversity competence, and multicultural expertise. What defines a culture? What barriers might block successful communication between individuals or agencies of differing cultures? How can those barriers be understood and navigated to enhance intercultural communication and understanding? These questions and more are explained within the pages of this new reference work.

**Key Features:** 300 to 350 entries organized in A to Z fashion in two volumes. Signed entries that conclude with Cross References and Suggestions for Further Readings. Thematic Reader's Guide in the front matter grouping related entries by broad topic areas. Chronology that provides a historical perspective of the development of cultural competence as a discrete field of study. Resources appendix and a comprehensive Index. The SAGE Encyclopedia of Intercultural Competence is an authoritative and rigorous source on intercultural competence and related issues, making it a must-have reference for all academic libraries.

***Manual for Developing Intercultural Competencies (Open Access)*** Darla K. Deardorff, 2019-08-16 This book presents a structured yet flexible methodology for developing intercultural competence in a variety of contexts, both formal and informal. Piloted around the world by UNESCO, this methodology has proven to be effective in a range of different contexts and focused on a variety of different issues. It therefore can be considered an important resource for anyone concerned with effectively managing the growing cultural diversity within our societies to ensure inclusive and sustainable development. Intercultural competence refers to the skills, attitudes, and behaviours needed to improve interactions across difference, whether within a society (differences due to age, gender, religion, socio-economic status, political affiliation, ethnicity, and so on) or across borders. The book serves as a tool to develop those competences, presenting an innovative adaptation of what could be considered an ancient tradition of storytelling found in many cultures. Through engaging in the methodology, participants develop key elements of intercultural competence, including greater self-awareness, openness, respect, reflexivity, empathy, increased awareness of others, and in the end, greater cultural humility. This book will be of great interest to intercultural trainers, policy makers, development practitioners, educators, community organizers, civil society leaders, university lecturers, and students, all who are interested in developing intercultural competence as a means to understand and appreciate difference, develop relationships with those across difference, engage in intercultural dialogue, and bridge societal divides.

**Four Overarching Patterns of Culture** Robert Strauss, Christopher Strauss, 2019 Justice has been the dominant cultural framework of people in the West for two centuries ever since the rise of constitutional democracies. Consciously or not, most people in the West have a strong awareness of right and wrong. Their sense of morality is generally rooted in an obligation to the rule of law. In democratic societies, the rule of law ultimately relies on constitutional documents ratified by a widely accepted process of development and implementation. For millennia, honor has been the dominant cultural framework of most people in the East and Middle East. Here, people know that speech and behavior display respect or disrespect. While pervasive in all relationships, honor and shame are most important in the family, extended family, and local community. In the East, honor is not necessarily an internal feeling as it is in a justice culture. Honor is more often an external attribution bestowed by others rather than claimed by oneself. Harmony is prevalent globally in indigenous cultures. Many indigenous peoples do not distinguish between the supernatural and natural worlds. All aspects of life are connected. Interactions with spirit beings are the key to maintaining harmony in order to be secure. Reciprocity is a common cultural framework in the Global South. Here, one learns to develop connections with the right people in given circumstances for needed resources. These connections may or may not be characterized as friendships and provide not so much close friendships as reciprocal exchange. In some places, reciprocity is the means whereby one survives.
