Upsetting Composition Commonplaces Ian Barnard, 2014-10-15 In *Upsetting Composition Commonplaces* Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist

theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition s refusal of poststructuralism rather than on providing solutions in the form of teaching templates Upsetting Composition Commonplaces addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing New Directions in Literature and Medicine Studies Stephanie M. Hilger,2017-11-11 This book is situated in the field of medical humanities and the articles continue the dialogue between the disciplines of literature and medicine that was initiated in the 1970s and has continued with ebbs and flows since then Recently the need to renew that interdisciplinary dialogue between these two fields which are both concerned with the human condition has resurfaced in the face of institutional challenges such as shrinking resources and the disappearance of many spaces devoted to the exchange of ideas between humanists and scientists This volume presents cutting edge research by scholars keen on not only maintaining but also enlivening that dialogue They come from a variety of cultural academic and disciplinary backgrounds and their essays are organized in four thematic clusters pedagogy the mind body connection alterity and medical practice

Rhetor Response Peter H. Khost,2018-09-10 Bridging the disciplinary divide between writing and literature Rhetor Response introduces the concept and pedagogical applications of literary affordances the ways in which readers use and integrate literature into their own writing or lives Unconcerned with authorial intent interpretive meaning or critical reception affordance signifies a shift in focus from what literary texts mean and do to what one can do with them This book presents both opportunities and challenges to writing studies a field whose burgeoning disciplinary independence ironically relies on a sizable underclass of specialists in literature rather than writing Incorporating elements of rhetorical theory literary criticism pedagogical methodology political critique and psychological and philosophical memoir Peter H Khost complicates and revives the relevance of literature from belles lettres to fanfiction by turning from interpretation to affordance in order to identify readers applications of literary textual features to unrelated lived situations Rhetor Response theorizes and exemplifies literary affordance as a constructive step toward professional reconciliation as well as an entry into greater textual power and pleasure for students and readers It is a one of a kind resource for college writing program administrators faculty and scholars in English and writing studies and graduate and advanced undergraduate students across both disciplines *Think About Such Things: A Compilation* Dr. Shi-Brone (Jake) Jacobs,2016-12-28 Dr Jacobs book is a guide for how to understand various Bible based thematic works The book does not suggest why or what to think but focuses on how to think It also provides various methods by which to glean value from perspectives that differ or disagree with traditionally high views of scripture Artistic cover by Summer Jacobs *Everything's an Argument With Readings 3e + America Now 6e* Andrea A.
