Modern Romance Aziz Ansari, Eric Klinenberg, 2015-06-16 The 1 New York Times Bestseller An engaging look at the often head scratching frequently infuriating mating behaviors that shape our love lives Refinery 29 A hilarious thoughtful and in depth exploration of the pleasures and perils of modern romance from Aziz Ansari the star of Master of None and one of this generation s sharpest comedic voices At some point every one of us embarks on a journey to find love We meet people date get into and out of relationships all with the hope of finding someone with whom we share a deep connection This seems standard now but it s wildly different from what people did even just decades ago Single people today have more romantic options than at any point in human history With technology our abilities to connect with and sort through these options are staggering So why are so many people frustrated Some of our problems are unique to our time Why did this guy just text me an emoji of a pizza Should I go out with this girl even though she listed Combos as one of her favorite snack foods Combos My girlfriend just got a message from some dude named Nathan Who s Nathan Did he just send her a photo of his penis Should I check just to be sure But the transformation of our romantic lives can t be explained by technology alone In a short period of time the whole culture of finding love has changed dramatically A few decades ago people would find a decent person who lived in their neighborhood Their families would meet and after deciding neither party seemed like a murderer they would get married and soon have a kid all by the time they were twenty four Today people marry later than ever and spend years of their lives on a quest to find the perfect person a soul mate For years Aziz Ansari has been aiming his comic insight at modern romance but for Modern Romance the book he decided he needed to take things to another level He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita They analyzed behavioral data and surveys and created their own online research forum on Reddit which drew thousands of messages They enlisted the world s leading social scientists including Andrew Cherlin Eli Finkel Helen Fisher Sheena Iyengar Barry Schwartz Sherry Turkle and Robb Willer The result is unlike any social science or humor book we ve seen before In Modern Romance Ansari combines his irreverent humor with cutting edge social science to give us an unforgettable tour of our new romantic world [Parameters of Morphosyntactic Change](#) Ans van Kemenade, Nigel Vincent, 1997-05 The relationship between changes in inflectional morphology and the consequences of these changes in syntax has been a perennial issue in historical linguistics The contributors to this 1997 volume address the issue of how to model the phenomena of syntactic and morphological change within recent frameworks in particular the Minimalist Program A special concern is the way different criteria for the selection of argument structure especially aspect and mood interact over time with various types of argument marking case word order clitics agreement The volume contains papers by many of the leading scholars in the field There is a substantial introduction which reviews the development of ideas in generative historical syntax and assesses the distinctive properties of

the generative position

Grammatical Change and Linguistic Theory Þórhallur Eyþórsson, 2008 This book contains 15 revised papers originally presented at a symposium at Rosendal Norway under the aegis of The Centre for Advanced Study CAS at the Norwegian Academy of Science and Letters The overall theme of the volume is internal factors in grammatical change The papers focus on fundamental questions in theoretically based historical linguistics from a broad perspective Several of the papers relate to grammaticalization in different ways but are generally critical of Grammaticalization Theory Further papers focus on the causes of syntactic change pinpointing both extra syntactic exogenous causes and more controversially internally driven endogenous causes The volume is rounded up by contributions on morphological change by itself A wide range of languages is covered including Tsova Tush Nakh Dagestan Zoque and Athapaskan languages in addition to Indo European languages both the more familiar ones and some less well studied varieties

Ethics: an Investigation of the Facts and Laws of the Moral Life Wilhelm Max Wundt, 1902 Medieval Romance and the Construction of Heterosexuality L. Crosslinguistic Research in Syntax and Semantics Raffaella Zanuttini, Héctor Campos, Elena Herburger, Paul H. Portner, 2006-05-19 Presenting cutting edge research in syntax and semantics this important volume furthers theoretical claims in generative linguistics and represents a significant

addition to present scholarship in the field. Leading scholars present crosslinguistic studies dealing with clausal architecture, negation and tense and aspect and the issue of whether a statistical model can by itself capture the richness of human linguistic abilities. Taken together these contributions elegantly show how theoretical tools can propel our understanding of language beyond pretheoretical descriptions especially when combined with the insight and skills of linguists who can analyze difficult and complex data. Crosslinguistic Research in Syntax and Semantics covers a range of topics currently at the center of lively debate in the linguistic literature such as the structure of the left periphery of the clause, the proper treatment of negative polarity items and the role of statistical learning in building a model of linguistic competence. The ten original contributions offer an excellent balance of novel empirical description and theoretical analysis applied to a wide range of languages including Dutch, German, Irish, English, Italian, Malagasy, Malay and a number of medieval Romance languages. Scholars and students of semantics, syntax and linguistic theory will find it to be a valuable resource for ongoing scholarship and advanced study.

Phrase Structure and the Syntax of Clitics in the History of Spanish, Josep M. Fontana, 1993. This thesis is a qualitative and quantitative study of the changes that occurred in the phrase structure and system of pronominal clitics in medieval and renaissance Spanish with the goal of explaining the basic differences between the syntactic properties of clitics in Old Spanish and their counterparts in the various dialects of modern Spanish.
