[A List of Plants from Sendyoazan](#) Genkei Masamune, 1932 [Too Hot to Handle](#) Jonathan Zimmerman, 2016-09-13 The first comprehensive history of sex education around the world Too Hot to Handle is the first truly international history of sex education As Jonathan Zimmerman shows the controversial subject began in the West and

spread steadily around the world over the past century As people crossed borders however they joined hands to block sex education from most of their classrooms Examining key players who supported and opposed the sex education movement Zimmerman takes a close look at one of the most debated and divisive hallmarks of modern schooling In the early 1900s the United States pioneered sex education to protect citizens from venereal disease But the American approach came under fire after World War II from European countries which valued individual rights and pleasures over social goals and outcomes In the so called Third World sex education developed in response to the deadly crisis of HIV AIDS By the early 2000s nearly every country in the world addressed sex in its official school curriculum Still Zimmerman demonstrates that sex education never won a sustained foothold parents and religious leaders rejected the subject as an intrusion on their authority while teachers and principals worried that it would undermine their own tenuous powers Despite the overall liberalization of sexual attitudes opposition to sex education increased as the century unfolded Into the present it remains a subject without a home Too Hot to Handle presents the stormy development and dilemmas of school based sex education in the modern world
