The car's forward motion is opposed by the friction between the road and the car, and by the resistance of the air. The net of these opposing forces is balanced by an upward opposing force exerted by the engine and applied to the car, when the road exerts a reaction force that is directed forward.

19. Mass is the amount of matter in an object and is an inherent property of an object and is the magnitude of the force due to gravity acting on the object.
