Digital Work in the Planetary Market Mark Graham, Fabian Ferrari, 2022-06-14 Understanding the embedded and disembedded, material and immaterial, territorialized and deterritorialized natures of digital work. Many jobs today can be done from anywhere. Digital technology and widespread internet connectivity allow almost anyone anywhere to connect to anyone else to communicate and exchange files, data, video, and audio. In other words, work can be deterritorialized at a planetary scale. This book examines the implications for both work and workers when work is commodified and traded beyond local labor markets. Going beyond the usual world-is-flat globalization discourse, contributors look at both the transformation of work itself and the wider systems, networks, and processes that enable digital work in a planetary market, offering both empirical and theoretical perspectives. The contributors, leading scholars and experts from a range of disciplines, touch on a variety of issues, including content moderation, autonomous vehicles, and voice assistants. They first look at the new experience of work, finding that despite its planetary connections, labor remains geographically sticky and embedded in distinct contexts. They go on to consider how planetary networks of work can be mapped and problematized, discuss the productive multiplicity and interdisciplinarity of

thinking about digital work and its networks and finally imagine how planetary work could be regulated Contributors Sana Ahmad Payal Arora Janine Berg Antonio A Casilli Julie Chen Christina Colclough Fabian Ferrari Mark Graham Andreas Hackl Matthew Hockenberry Hannah Johnston Martin Krzywdzinski Johan Lindquist Joana Moll Brett Neilson Usha Raman Jara Rocha Jathan Sadowski Florian A Schmidt Cheryll Ruth Soriano Nick Srnicek James Steinhoff Jara Rocha JS Tan Paola Tubaro Moira Weigel Lin Zhang *EBOOK: Marketing Management* Christian Homburg, Sabine Kuester, Harley Krohmer, 2012-12-16 Marketing Management A Contemporary Perspective provides a fresh new perspective on marketing from some of the leading researchers in Europe The book offers students and practitioners the comprehensive coverage they need to make the right decisions to create and implement highly successful marketing strategies This exciting new edition includes updated cases and combines scholarly international research with relevant and contemporary examples from markets and brands across the world The authors combine their experience as researchers and industry consultants to provide the conceptual and theoretical underpinning of marketing and empirical research helping students to understand how marketing concepts can be applied and implemented The book covers a full range of industries including business to customer business to business services marketing retailing and international marketing from companies around the globe
