Sleep Hacks Today:

Technosleep Catherine Coveney, Michael Greaney, Eric L. Hsu, Robert Meadows, Simon J. Williams, 2023-06-25 This book draws on a variety of substantive examples from science technology medicine literature and popular culture to highlight how a new technoscientifically mediated and modified phase and form of technosleep is now in the making in the global north at least and to discuss the consequences for our relationships to sleep the values we accord sleep and the very nature and normativities of sleep itself The authors discuss how technosleep at its simplest denotes the coming together or entanglements of sleep and technology and sensitizes us to various shifts in sleep technology relations through culture time and place In doing so it pays close attention to the salience and significance of these trends and transformations to date in everyday night life their implications for sleep inequalities and the related issues of sleep and social justice they suggest

School-based Practice with Children and Youth Experiencing Homelessness James Canfield, 2015-03-30 Schools are facing increasing numbers of homeless students and school social workers and other related professionals are often at the front line of addressing the negative impact homelessness brings to individual students and the school overall School social workers and other school based personnel must contend with a myriad of policies and other factors related to homelessness to help students obtain an education School based Practice with Children and Youth Experiencing Homelessness is one of the first books to focus on this topic in the context of our social work practice This book guides practitioners through the conceptualization of homelessness how experiencing homelessness impacts the children we serve the policies that govern us and finally a practice perspective Written with practitioners in mind School based Practice with Children and Youth Experiencing Homelessness is loaded with case studies and practice examples and is an accessible handbook to addressing homelessness in our schools

Unstressable Mo Gawdat, Egypt, Alice Law, 2024-04-30 Mo Gawdat is an engineer What most of us see as insurmountable problems he sees as systems overloads to tackle and solve *Unstressable* breaks stress into inputs and effects classifying human stressors as stress to the mind stress to emotions stress to the body and stress to the soul Once classified Gawdat and co author Alice Law show readers how stress can be predicted and once predicted prevented *Unstressable* illuminates for readers how most of us deal with the unpleasant anxiety producing and even miserable or tragic events in our lives stress is always a by product leading directly to inability to cope health problems and cratered confidence Gawdat and Law guide readers to both heart centred and science based solutions They ll train readers to Develop habits and attitudes of listening and learning that limit stress Learn the language of de stressing mind emotions body and soul Respond not react Release self criticism insomnia and lethargy Increase energy focus and confidence *Unstressable* is a handbook for those who understand that stress isn't what happens to you it's how you handle what happens to you It's a practical and rounded approach to an ever increasing modern day problem

Everyday Extraordinary Barry Markovsky, 2026-03-17 Experiences with strange phenomena such as ghosts UFOs psychics and miracle cures make for titillating stories Many of us leave these stories as just that stories but for some people the rabbit hole of conspiracy theories and otherworldly happenings leads down a dark path Paranoia and the belief in the paranormal have real life consequences What is the science behind these scenarios *Everyday Extraordinary* provides an antidote for the conspiracy theories medical quackery and science denial prevailing in today's pop culture People will always believe in the unbelievable In this skeptical and scientific investigation Barry Markovsky pushes back against harmful flights of fancy with down to earth and evidence based explanations wrapped in compelling stories Each of the chronologically ordered chapters has a Frontstage and Backstage section The Frontstage recounts a personal experience awakening from a night terror as a young child having my fortune told by a psychic the claims of an alternative medicine practitioner The Backstage section explains in simple terms what's actually going on mechanisms and functions behind our dreams how psychics use standard cold reading techniques how quack doctors distort evidence Each explanation is scientifically grounded but with minimal jargon and softened with anecdotes illustrations and humor *Everyday Extraordinary* makes sense of things that at first seem inexplicable Many of these experiences feel special and unique despite being remarkably common And even when not experienced directly most are all too familiar to readers through reality TV shows tabloids and social media The stories gently encourage readers to ask questions rather than jump to conclusions to consider alternative explanations for what happened to distinguish good evidence from bad to suspend judgment when the evidence isn't there to have a mind both open and skeptical to consider that what we wish to be true may not always be so Without being preachy the scientific explanations prove extraordinary in their own right Along the way readers accumulate tools for thinking critically about all sorts of claims extraordinary and otherwise
