[The Layperson's Guide to Exercise, Diet & Supplements](#) Daniel J. Shamy, 2013-04 We instinctively know that exercise eating the right things and taking vitamins sustains our health maintains our youth and offers a sense of wellbeing. Traditional fitness publications do a great job telling you what to do but lack any explanation as to the why and how. They offer a map to youth by micromanaging your diet exercise and or supplements. You blindly follow their lead in

expectation of finding your fountain of youth through their training Every body is different which is why one map may work for one person but not another maybe it failed you so you try another What you may not realize is that although they offer step by step instruction to find the fountain they are not teaching you how to read the map Although the map is the same the directions are different for each of us to find the fountain of youth The difference between the layperson and expert is their ability to read the map as a whole that map is our anatomy That cartography lesson is learned by teaching you how exercise diet and supplements work rather than being told what in the same to follow At the end of the lesson you may now understand that your journey may require parts of many methods rather than the single direction of one The author shares his own journey as he teaches you how to read the map so you understand how one has successfully read the map to discover his fountain of youth TV Guide ,2002 **The Woman's Day Guide to Lasting Weight Loss** Kathy Keenan Isoldi,2007
