Lewis,2025-08-01 Julian Marks doesn't believe in miracles he exposes them for a living As the sharp tongued host of a viral debunking podcast Julian has made a name dragging fake faith healers into the light So when a video of a small town spiritual guru starts making waves Julian packs his cynicism and heads to Riverbend Virginia ready to blow the whole operation wide open Enter Jude Brooks glowing grounded and gorgeous enough to make a skeptic sweat He's everything Julian hates calm kind and entirely too comfortable with the divine But the deeper Julian digs the harder it is to tell if Jude's a con artist or the real thing What begins as an expos quickly turns into an unraveling of secrets of trauma of the carefully built walls around Julian's heart And Jude He might just be the one man who can heal what's been broken But only if Julian lets him Enemies to lovers meets spiritual awakening in this sensual soul stirring novella about truth trust and the unexpected holiness of falling hard This 28k word novella can be consumed faster than a Sunday sermon and it's way more fun

Chronicles of Care: A Design History of the COVID-19 Virus Paul A. Rodgers,Fernando Galton,Craig Bremner,2024-04-16 The Covid 19 crisis and the designed interventions that the authors have catalogued in this book prove definitively that

design does care The authors documented this as it evolved every day from the 1st January 2020 to 31st May 2020 inclusive Then they looked at all of this care and caring from the point of view of design and by the sheer volume of design interventions they have documented illustrate that design is good in a crisis What the Covid 19 pandemic illustrated is that for the first time in modern history capital was totally irrelevant Money could not save your life Only design could Rapidly designed masks shelters hospitals instructional posters infographics dashboards respirators sanitisers virtual and local communities emerged to save us From January 2020 design became king The Covid 19 global pandemic presented an ontological reality design is more than margins or profit In fact design became extremely valuable when it stopped concentrating on those things and started to care about peoples lives This brief episode in history is still repositioning the status of design and reconfiguring its signifier from consumption to care The contents of this book cover the outbreak lockdown and the beginning of the reopening in the UK In between the book functions as a history of pandemic crisis design interventions As such it is a research in the moment project where we have illustrated our thoughts and insights in tables charts and diagrams We have accepted all design interventions as valid and given them the same role and status by presenting each of them in a standard format No curation No selection No position The task of critical analysis must follow perhaps by us certainly by others
