American Trojan C. L. Max Nikias, 2026-03-03 American Trojan is the captivating story of a refugee who lost everything and then rebuilt it all an immigrant who defied the odds and achieved the American Dream a visionary technologist who transformed the University of Southern California into one of the nation's most prestigious private research universities At a time when many universities have succumbed to ideology over truth under Nikias's leadership USC retained its academic integrity in the face of high stakes negotiations high rolling donors and the profound challenges of modern leadership Hailing from a humble village on the island of Cyprus Nikias steeped in thousands of years of history as he grew up But when the Turkish invasion of 1974 destroyed everything his family had built he came to America to see what the Land of Opportunity had to offer Upon completion of his graduate engineering studies he embarked on an academic career that established him as a pioneer in digital signal analysis lead him to collaborate on military projects with the U S Navy and eventually led him to USC which would forever alter the trajectory of his career and life Against this dramatic backdrop American Trojan offers candid insights into how Nikias bold vision transformed USC into one of America's most elite universities More than a personal story it is a blueprint for leadership offering insights into how Nikias and his team strategized to meet formidable challenges to USC An urgent examination of higher education's current crisis American Trojan provides a roadmap for renewal offering specific recommendations for how universities can reclaim their true mission of transmitting knowledge and cultivating young minds

Global University Rankings and the Mediatization of Higher Education Michelle Stack, 2016-04-12 Higher Education Institutions simultaneously critique and participate in national and international rankings of universities However this creates a difficult situation since if universities do participate in rankings they acquiesce to a system based in media logics that has little to do with academic norms of research If they do not participate in the rankings they risk losing public funding students and donors in an increasingly competitive and globalized environment This book delves into the influence of journalists business tycoons and multinational corporations in defining what world class is and how it will be measured Rankings provide us with a rich study for understanding how universities define deploy and manage their assets and liabilities in a mediatized globalized economy

Geopolitics of the Knowledge-Based Economy Sami Mo시오, 2018-02-19 We live in the era of the knowledge based economy and this has major implications for the ways in which states cities and even supranational political units are spatially planned governed and developed In this book Sami Mo시오 delves deeply into the links between the knowledge based economy and geopolitics examining a wide range of themes including city geopolitics and the university as a geopolitical site Overall this work shows that knowledge based economization can be understood as a geopolitical process that produces territories of wealth security power and belonging This book will prove enlightening to students researchers and policymakers in the fields of human geography urban studies spatial planning political science and international relations
