You already know that Facebook has a huge audience. A whopping 2.4 billion people use it each month. But maybe you did not know how frequently people are using Facebook to interact with businesses of all sizes. For example, two-thirds of Facebook users state they visit a local business Facebook Page at least once every week. Prospective customers are already looking for businesses like yours on Facebook. This applies to pages as well as posts. But we will discuss that a little later in the piece. What Facebook's algorithm does not enjoy is fairly clear as well: Spam, click-baiting, like-baiting, repetitive posts, text-only upgrades, unusual engagement patterns, and content that is too promotional.
