Revise for Geography GCSE OCR Specification A David Atkins, 2002 Following the requirements of OCR Geography specification A this revision guide includes sample exam questions to build students confidence It can be used for additional practice either in the classroom or at home and offers advice on exam techniques map skills and data analysis

Teach Like Nobody's Watching Mark Enser, 2019-08-21 In Teach Like Nobody s Watching The essential guide to effective and efficient teaching Mark Enser sets out a time efficient approach to teaching that will reduce teachers workload and enhance their pupils levels of engagement and attainment At a time when schools are crying out for more autonomy and trust teacher and bestselling author Mark Enser asks educators the critical question How would you teach if nobody were watching and empowers them with the tools and confidence to do just that Mark argues that a quality education is rooted in simplicity In this book he convincingly strips away the layers of contradictory pedagogical advice that teachers have received over the years and lends weight to the three key pillars that underpin effective efficient teaching the lesson the curriculum and the school s support structure Teach Like Nobody s Watching explores these three core elements in detail and presents teachers with a range of practical time efficient approaches to help them reclaim their professional agency and ensure that their pupils get the excellent education they deserve Part I considers the individual lesson and explores how lessons can be built around four simple elements recap input application and feedback Each chapter considers one aspect of the lesson in turn and discusses its importance with a particular focus on how educational research can be applied to it in the classroom how it might look in different subjects and the potential pitfalls to avoid Part II recognises that lessons don t happen in isolation but as part of a wider curriculum This section tackles the creation of a programme of study that takes pupils on a journey through your subject the super curriculum of what happens outside the classroom the principles of assessment design and how time in departments can be used to reduce workload and support a culture of excellence Finally

Part III looks at the role of the wider school in supporting teachers to teach like nobody's watching and how leaders can help to set them free from some of the more burdensome pressures. In this section Mark draws on the experience of school leaders in a range of different contexts to illustrate what they have done to support effective and efficient teaching in their schools. Suitable for all teachers in both primary and secondary schools. *Captivating your Class* Joanne Philpott, 2009-02-02. This essential handbook offers practical approaches to teaching in an Advanced Level A Level classroom; this includes AS, A2 and all level 3 equivalents as well as the International Baccalaureate and other post-16 qualifications. It is primarily designed to give confidence to teachers to teach in a way that encourages students to enjoy learning in lessons in a purposeful way. It will build on theoretical work where appropriate to help reflection and planning by individual teachers for their specific subjects and classes. The references section will guide teachers to further reading for each of the chapters if they wish to explore the theory in greater depth. The key messages of the book are twofold. Firstly, personalised planning of lessons is essential; generic lesson plans will not work at A Level and teachers will need to be aware of the personalities and individual strengths and weaknesses of the students in their class to be able to structure and develop their learning accordingly. Secondly, the strategies will be successful when they have been developed in relation to the subject and consolidated to secure subject knowledge and understanding. To this end, many suggestions are exemplified through a range of subject examples for both AS and A2. This comprehensive guide is a must for those teaching anyone post-16. [Missing the Mark](#) Dennis Sherwood, 2022-08-04. UNCOVERED: 1 in 4 EXAM GRADES IS WRONG. An important contribution to our thinking. Sixth Form Colleges Association. An uncomfortable but important read. Headmasters and Headmistresses Conference. Everyone in UK education should reflect upon the problems identified in this powerful book. Higher Education Policy Institute. Every summer in Britain, one million GCSE and A Level candidates receive results that define their school years and set them up for their life. But those results are gravely unreliable. In fact, about one grade in four in England is WRONG. That is 1.5 million grades every year. An A Level grade B might have been an A or even a C had a different examiner marked the script. Similarly, a GCSE grade 7 might have received a grade 8 or a 6. For a decade, young people and their friends and families have been unable to grasp the full extent of this randomness. Now, in this definitive and easy-to-follow book, Dennis Sherwood explains why so many pupils receive final grades that don't do them justice. And he suggests ways to regain trust which apply to essay-based exams throughout the world. Reviews: Know an A Level student who you were absolutely sure should nail an A but ended up with a B? Well, they probably should have got that A but were a victim of this scandal. Sherwood's work changed my outlook. Let him change yours too. Robert Campbell, former Chief Executive, Morris Education Trust. Dennis has been challenging our thinking about assessment and the awarding of grades for many years, combining detailed research with an engaging manner and clear explanations. This is an important contribution to our thinking. Bill Watkin, Chief Executive, Sixth Form Colleges Association. Dennis Sherwood asks the questions about exam grades that no one really wants to answer. His analysis suggests

that much of what we think we know about school exams is based at best on wishful thinking and at worst on wilful misrepresentation of statistics But he also has some positive suggestions for improvement Missing the Mark is an uncomfortable but important read Melvyn Roffe Chair Headmasters and Headmistresses Conference Missing a grade can result in university or college applications being rejected Dennis Sherwood asks the 64 000 question Are grades reliable enough for the purposes they are supposed to serve This book presents an insightful analysis of this important matter including the rules introduced in 2016 to reduce the number of appeals the controversial grading processes in 2020 and 2021 when exams were cancelled why real grades are so unreliable and some solutions too Huy Duong parent Everyone in UK education should reflect upon the problems identified in this powerful book and then decide what to do about them Nick Hillman Director Higher Education Policy Institute Anyone with an interest in how examinations are assessed from those in government regulators schools colleges universities to employers teachers parents and students should read Dennis Sherwood s incisive analysis His conclusions will have a profound impact on our idea of the accuracy reliability and fairness of examinations Mike Larkin Emeritus Professor Queen s University of Belfast and Total Equality For Students Dennis provides a clear step by step outline of what is going so terribly wrong and the easy ways to remedy this Ollie Green A level student About the author Dennis Sherwood is a management consultant with experience of solving complex problems He has a Physics Masters from the University of Cambridge an MPhil in Molecular Biophysics and Biochemistry from Yale University and a PhD in biology from the University of California in San Diego After being a consulting partner at Deloitte Haskins Sells and Coopers Lybrand he became an executive director at Goldman Sachs He now runs his own business specialising in organisational creativity and innovation He is author of 14 books [The Journal of Education](#) ,1892 *The Saskatchewan Bulletin* ,1958 *International Perspectives on Creative Writing in Second Language Education* Bee Chamcharatsri,Atsushi Iida,2022-02-10 This volume explores the instructional use of creative writing in secondary and post secondary contexts to enhance students language proficiency and expression in English as a second or foreign language ESL EFL Offering a diverse range of perspectives from scholars and practitioners involved in English language teaching ELT globally International Perspectives on Creative Writing in Second Language Education tackles foundational questions around why fiction and creative writing have been traditionally omitted from ESL and EFL curricula By drawing on empirical research and first hand experience contributors showcase a range of creative genres including autobiography scriptwriting poetry and e Portfolios and provide new insight into the benefits of second language creative writing for learners language proficiency emotional expression and identity development The volume makes a unique contribution to the field of second language writing by highlighting the breadth of second language users throughout the world and foregrounding links between identity learning and ESL EFL writing This insightful volume will be of particular interest to postgraduate students researchers and academics in the fields of ESL EFL learning composition studies and second language acquisition SLA Those with a focus on the use of
