

# Great Dane Colors

Great Danes come in six standard colors. Any color other than a standard color is considered a non-standard color (mismark). Some, but not all, non-standard colors are the result of inadvisable crossing of certain color families. Genetic color testing can be done to determine what colors a dog carries for and should be done if there is any question on what color(s) a dog carries for.

## Fawn

STANDARD

NON-STANDARD

The color shall be yellow gold with a black mask. Black should appear on the eye rims and eyebrows, and may appear on the ears and tail tip. The deep yellow gold must always be given the preference. White markings at the chest and toes, black-tinted dirty-colored fawns are not desirable. Fawns are in the Fawn/Brindle color family and should only be bred to fawns and brindles.

## Brindle

STANDARD

NON-STANDARD

The base color shall be yellow gold and always brindled with strong black-coat stripes in a chevron-pattern. A black mask is preferred. Black should appear on the eye rims and eyebrows, and may appear on the ears and tail tip. The more intensive the base color and the more distinct and even the brindle, the more preferred will be the color. Too much or too little brindling are equally undesirable. White markings at the chest and toes, black-tinted dirty-colored brindles are not desirable. Brindles are in the Fawn/Brindle color family and should only be bred to fawns and brindles.

## Black

STANDARD

NON-STANDARD

The color shall be a glossy black. White markings at the chest and toes are not desirable. The black color family has three sub-groups: Blacks out of Black (including Blacks out of Blue breeding and Blacks out of Harlequin), Black-and-Black-and-Blacks, can be bred to any of the subgroup Blacks, but Black-and-Black-and-Blacks for Black should not be bred to the Harlequin color family. Blacks carrying for Harlequin should not be bred to Blue.

## Blue

STANDARD

NON-STANDARD

The color shall be a pure steel blue. White markings at the chest and toes are not desirable. Blue is a dilute, and can be bred to Blue, Black-and-Black or Blue-and-Black. Blue should not be bred to the Fawn/Brindle or Harlequin color family.

## Harlequin

STANDARD

NON-STANDARD

Base color shall be pure white with black, burn patches, irregularly and well distributed over the entire body, in pure white-mask is preferred. These patches are normal. No patch should be so large that it appears to be a blanket. The Harlequin color family is genetically complex. Standard and non-standard colors bred by the Harlequin color family include Mantles, Whites, Merles, Phobias, Blacks with too much white and other variations. The Harlequin color family should not be bred to the Fawn/Brindle, Blue or Blue-and-Black color families.

## Mantle

STANDARD

NON-STANDARD

The color shall be black and white with a solid black blanket extending over the body. Black shall both muzzle, white blaze is optional, whole white color preferred. A white chest, white on part or whole of lower leg and black-tinted white-tipped black or white markings on the black blanket is acceptable, as is a break in the white color. Mantle is a color of the Harlequin color family and should be bred in the same manner as Harlequin.

Any variance in color or markings described above shall be faulted to the extent of the deviation. Any Great Dane which does not fall within the above color classifications must be disqualified.

*The Complete Guide to the Great Dane* Malcolm Lee, 2020-03-26      [The Complete Guide to the Great Dane](#) Malcolm Lee, 2020-03-26

Once you have been lucky enough to welcome a Dane into your family there is no going back. These gentle giants need lots of affection and socialization. They are perfect family pets and are fiercely protective of the young Greats with kids of all ages; they are patient, loving, and make great playmates. Whether you are selecting a new Great Dane puppy from a breeder or adopting a Great Dane from a rescue, *The Complete Guide to Great Danes* will help you successfully find, raise, and train your new puppy. Chapter topics include: Finding your Great Dane, Preparing for your New Arrival, Welcoming your Great Dane Home, Successful Great Dane Parenting, Nutrition and Diet, Grooming and Care, An Introduction to Training, Raising Multiple Pets, Socializing with Dogs and Humans outside the Family, Traveling with a Giant, Healthy Body, Healthy Mind, Advanced Great Dane Training, Dealing with Unacceptable Behavior, Advanced Health and Senior Dane Care. A Great Dane is as happy in a condo as it is in a castle; all it needs is love and attention. Remember, though, this breed's huge size means it takes up a lot of physical space on your bed, on your sofa, on your lap, and especially in your heart, which is where he or she will always want to be. What's more, raise a Great Dane alongside other animals, and you will have no problem. They crave company regardless of whether their brother or sister is a Pug or a Pointer. Like all big dogs, though, they need to be trained as puppies and learn how not to throw their considerable weight around. Great Danes love to range, meaning they need space to move around freely rather than intense exercise. So if you are welcoming a Dane into a small size home, be ready to go out on regular walks. If you are thinking about making a Great Dane a part of your family or are already a Dane owner, then be aware a Great Dane is a huge commitment. From choosing your Great Dane to managing his or her final journey across the Rainbow Bridge, read on and discover everything you need to know about these big-hearted hounds.
