Let's find out more about
Manifest Destiny!

Manifest Destiny was a belief in 19th-century America that God called the United States to spread its philosophies and expand its dominion across the continent, which it believed was "less civilised."

An allegorical representation of Manifest Destiny

This concept motivated westward expansion, drove the nation into conflicts, and justified the removal of Indigenous communities from their ancestral lands. Despite the narrative describing it as a period of progress and exploration, the legacy of Manifest Destiny negatively impacted Indigenous communities.
