snacks Meal prepping is not a waste and it's not outside your budget. Whether you plan a diet or a budget. When you're not eating the right meals without having to diet. Meal prepping is not for everyone. It is a value convenience and more than that. With meal prepping you can eat the same thing for a few days so you don't get bored with food. Meal prepping is not for you. If you're maximizing your budget, it's not something you should do. Meal prepping is not for you. Generally, I've never seen a meal prep person or maybe one other person do a whole meal prep. Meal prep would be quite difficult but it would be a great idea. A diet is stored in the refrigerator in a slow cooker. In addition to the way food is packed, the individual nuances of your refrigerator can impact the quality of refrigerated meals. The quality is not acceptable. The texture and flavor will be a problem for the eater. Always begin with the refrigerator guidelines. The FDA and the nutrition value of them are your own preferences. In general, I don't think it's more than a few days worth. I find that the food is not as good as it should be. **Meal Prep Cookbook** Keith S.
