Nfl Schedule College Rankings Review:

Who's #1? Amy N. Langville, Carl D. Meyer, 2012-02-26 Who's #1 offers an engaging and accessible account of how scientific rating and ranking methods are created and applied to a variety of uses. Amy Langville and Carl Meyer provide the first comprehensive overview of the mathematical algorithms and methods used to rate and rank sports teams, political candidates, products, Web pages, and more. In a series of interesting asides, Langville and Meyer provide fascinating insights into the ingenious contributions of many of the field's pioneers. They survey and compare the different methods employed today, showing why their strengths and weaknesses depend on the underlying goal and explaining why and when a given method should be considered. Also describe what can and can't be expected from the most widely used systems. c Provided by publisher New York Magazine, 1981-09-14 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country.
