Digital Marketing Strategies for Value Co-creation Wilson Ozuem, Michelle Willis, 2022-03-21 Online brand communities OBCs are hugely important in the development of marketing strategy but it is unclear how marketers can effectively utilise these platforms to enhance and develop consumer engagement For an online brand community to be successful it should allow members to feel a connection to the brand and with other members while forming a disconnection from those not belonging to the community It should also have rituals and traditions that join members together over a revered commonality and moral responsibility in contributing to the community Indeed brands play active roles in securing degrees of activity in OBCs

through content that offers members the quality of engagement they seek This book focuses on contemporary digital marketing issues in OBCs offering a comprehensive examination of consumers response to active engagement in such communities It discusses how brands can tap into the various levels of participation engagement and online conversations in the development of marketing strategy and ultimately examines how an online brand community strengthens value co creation Balancing theory with practical approaches this book gives serious treatment to an important yet until now overlooked area of digital marketing strategy providing an important resource for scholars students and practitioners
