*Health Literacy and Libraries* Emily Vardell, Deborah Charbonneau, 2024-02-27 Selected as a 2025 Doody's Core Title  
This book brings together a diverse range of scholars and practitioners working at the nexus of health literacy work in libraries. This engaging resource presents a practical and accessible guide to meet the needs of librarians, health literacy researchers, and information and service professionals seeking to address health literacy needs in their communities. Through chapters offering multiple perspectives on the topic, the book covers specific types of literacy such as mental health literacy and health insurance literacy, as well as timely applications such as health misinformation. Chapters in this compilation also feature health literacy and the following communities: LGBTQ, Latinx, Black, and Immigrants, Refugees, and Migrants. The book is full of numerous examples, thoughtful advice, and discussions addressing the challenges of working with adolescents and young adults, older adults, and parent caregivers of children with rare diseases. Each chapter starts with Key Messages synthesizing the main points and concludes with a proposed set of Discussion Questions to inspire further reflection and to facilitate health literacy conversations. Overall, the up-to-date coverage of health literacy in various contexts explored throughout the book will be beneficial to a range of stakeholders interested in health literacy work. *Best STEM Resources for NextGen Scientists* Jennifer L. Hopwood, 2015-06-30 Intended to support the national initiative to strengthen learning in areas of science, technology, engineering, and mathematics, this book helps librarians who work with youth in school and public libraries to build better collections and more effectively use these collections through readers advisory and programming. A versatile and multi-faceted guide, *Best STEM Resources for NextGen Scientists: The Essential Selection and User's Guide* serves as a readers advisory and collection development resource for youth services and school librarians seeking to bring STEM-related titles into their collections and introduce teachers and young readers to them. This book not only guides readers to hundreds of the best STEM-related titles (fiction and non-fiction, printed materials as well as apps, DVDs, websites, and games), it also includes related activities or programming ideas to help promote the use of the collection to patrons or students in storytime, afterschool programs, or passive library programs. After a detailed discussion of the importance of STEM and the opportunities librarians have for involvement, the book lists and describes best STEM resources for young learners. Resources are organized according to the reading audiences for which they are intended, from toddlers through teens, and the book includes annotated lists of both fiction and non-fiction STEM titles as well as graphic novels, digital products, and online resources. In addition, the author offers a selection of professional readings for librarians and media specialists who wish to further expand their knowledge. *New Partnerships for a New Economy*, 2011
