other industry stakeholders Recent years have witnessed significant transformations in the film industry due to advancements in artificial intelligence AI technology and the surge of streaming services While traditional movie theaters retain their importance an increasing number of viewers now prefer online or mobile platforms for film consumption Consequently filmmakers must adapt to these evolving trends and find innovative ways to engage with audiences My goal in writing this book is to raise awareness about film marketing processes and the art of building a business and network within the film industry Unfortunately colleges and universities often neglect these critical aspects with the majority of lectures and programs focusing solely on the technicalities of filmmaking Merely obtaining a master s degree in film production is insufficient for success in this field To thrive in filmmaking like any other business one must cultivate relationships with various stakeholders ranging from cast and crew to sales agents distributors exhibitors lawyers and publicists This book is not another typical guide to filmmaking Instead I delve into the essential elements of building a successful business in the movie industry emphasizing the impact of artificial intelligence on different aspects of the filmmaking process Furthermore I discuss strategies for increasing the value of one s film such as hiring A list actors for low budget projects and more
