*Social Commerce* Efraim Turban, Judy Strauss, Linda Lai, 2015-11-17 This is a multidisciplinary textbook on social commerce by leading authors of e-commerce and e-marketing textbooks with contributions by several industry experts. It is effectively the first true textbook on this topic and can be used in one of the following ways: Textbook for a standalone elective course at the undergraduate or graduate levels including MBA and executive MBA programs; Supplementary text in marketing management or Information Systems disciplines; Training courses in industry; Support resources for researchers and practitioners in the fields of marketing management and information management. The book examines the latest trends in e-commerce including social businesses, social networking, social collaboration, innovations, and mobility. Individual chapters cover tools and platforms for social commerce, supporting theories and concepts, marketing communications, customer engagement and metrics, social shopping, social customer service, and CRM contents, the social enterprise, innovative applications, strategy and performance management, and implementing social commerce systems. Each chapter also includes a real-world example as an opening case, application cases, and examples, exhibits, a chapter summary, review questions, and end-of-chapter exercises. The book also includes a glossary and key terms, as well as supplementary materials that include PowerPoint lecture notes, an Instructor's Manual, a test bank, and five online tutorials.

**Smart Data Pricing** Soumya Sen, Carlee Joe-Wong, Sangtae Ha, Mung Chiang, 2014-09-09 A comprehensive text addressing the high demand for network cloud and content services through cutting-edge research on data pricing and business strategies. *Smart Data Pricing* tackles the timely issue of surging demand for network cloud and content services and corresponding innovations in pricing these services to benefit consumers, operators, and content providers. The pricing of data traffic and other services is central to the core challenges of network monetization, growth, sustainability, and bridging the digital divide. In this book, experts from both academia and industry discuss all aspects of smart data pricing research and development, including economic analyses, system development, user behavior, evaluation, and business strategies. *Smart Data Pricing* presents the analysis of leading researchers from industry and academia surrounding the pricing of network services and content. It discusses current trends in mobile and wired data usage and their economic implications for content providers, network operators, end users, government regulators, and other players in the Internet ecosystem. It includes new concepts and background technical knowledge that will help researchers and managers effectively monetize their networks and improve user quality of experience. It provides cutting-edge research on business strategies and initiatives through a diverse collection of perspectives. It combines academic and industry expertise from multiple disciplines and business organizations. The ideas and background of the technologies and economic principles discussed within these chapters are of real value to practitioners, researchers, and managers in identifying trends and deploying new pricing and network management technologies, and will help support managers in identifying new business directions and innovating solutions to challenging business problems.
