Price Theory and Applications Steven E. Landsburg, 1999 By the author of The Armchair Economist this text aims to make intermediate microeconomics fun and intellectually challenging The writing style provides a friendly presentation with many applications combined with a careful development of microeconomics theory All of the standard topics of intermediate price theory are included as well as many topics such as alternative normative criteria efficient asset markets contestable markets antitrust law human capital demand for public goods and more A unifying theme of social welfare is used throughout The inclusion of higher level mathematics is minimal

Strategic Corporate Social Responsibility David Chandler, 2019-08-13 A holistic perspective for navigating

and exploring the CSR landscape Strategic Corporate Social Responsibility Sustainable Value Creation Fifth Edition redefines corporate social responsibility CSR as being central to the value creating purpose of the firm and provides a framework that firms can use to navigate the complex and dynamic business landscape Based on a theory of empowered stakeholders this bestselling text argues that the responsibility of a corporation is to create value broadly defined The primary challenge for managers today is to balance the competing interests of the firm s stakeholders understanding that what they expect today may not be what they will expect tomorrow This tension is what makes CSR so demanding but it is also what makes CSR integral to the firm s strategy and day to day operations **The context of natural forest**

management and FSC certification in Brazil Claudia Romero,Manuel R. Guariguata,Francis E. Putz,Erin O. Sills,Guilherme R. Lima,Luciana Papp,Maureen Voigtlaender,Edson Vidal,2015-12-30 Management decisions on appropriate practices and policies regarding tropical forests often need to be made in spite of innumerable uncertainties and complexities Among the uncertainties are the lack of formalization of lessons learned regarding the impacts of previous programs and projects Beyond the challenges of generating the proper information on these impacts there are other difficulties that relate with how to socialize the information and knowledge gained so that change is transformational and enduring The main complexities lie in understanding the interactions of social ecological systems at different scales and how they varied through time in response to policy and other processes This volume is part of a broad research effort to develop an independent evaluation of certification impacts with stakeholder input which focuses on FSC certification of natural tropical forests More specifically the evaluation program aims at building the evidence base of the empirical biophysical social economic and policy effects that FSC certification of natural forest has had in Brazil as well as in other tropical countries The contents of this volume highlight the opportunities and constraints that those responsible for managing natural forests for timber production have experienced in their efforts to improve their practices in Brazil As such the goal of the studies in this volume is to serve as the foundation to design an impact evaluation framework of the impacts of FSC certification of natural forests in a participatory manner with interested parties from institutions and organizations to communities and individuals
