Teaching and Assessing with AI: Teaching Ideas, Research, and Reflections Davide Girardelli,Kelly Merrill Jr ,Amy Wanyu Ou,2026-03-19 By the end of 2022 generative AI technologies based on large language models had become easily accessible and increasingly widespread As disruptive technologies their full impact and range of applications are still unfolding Education is one of the six key application areas for generative AI identified by Chiarello et al 2024 alongside human resources programming office automation social media and search engines In education generative AI offers new possibilities for teaching and assessment such as personalized tutoring automated feedback and adaptive systems e g Jensen et al 2024 However these innovations also present significant challenges that educators must navigate to ensure that all learners may benefit from them Specifically educators are called to tackle among other things the changing dynamics of teacher student communication the shifting nature of their role ethical concerns in assessment and the impact of generative AI on intercultural understanding in increasingly diverse education settings The aim of this Research Topic is to offer a platform for researchers and educators to reflect on the impact of these technological shifts on classroom culture and to share innovative pedagogical experiments that enhance teaching and assessing practices The editorial team has chosen a short paper format to capture fresh ideas conversations and pedagogical experimentations making them easily accessible to a wider audience of researchers and teachers This multidisciplinary project welcomes contributions from teachers and

researchers across a variety of fields e.g. communication, education, computer science, economics, mathematics, and biology. We are particularly interested in practices with cross-disciplinary relevance that can shape classroom cultures at the tertiary level. The generative AI tools discussed in contributions must be available in a free or free tier version or commonly available as part of university-wide enterprise licenses or similar. Submissions may focus on but are not limited to the following themes: effective practices and/or lessons learned in integrating generative AI tools in classroom settings; successful strategies for supporting teaching, learning, and assessment with generative AI tools; real-time student feedback through AI-driven feedback mechanisms; critical discussions on academic integrity, critical thinking, authorship, and other ethical concerns related to generative AI in classroom teaching, assessment, and curriculum design; advances in instructional communication and/or pedagogical theories in the light of the integration of generative AI tools in classroom settings; student engagement, participation, and collaborative learning in the AI-mediated classroom; educational materials, instructional sources, and teacher professional development in the AI-mediated classroom; development of knowledge and skills needed for learning in the generative AI era e.g. digital literacy and critical generative AI literacy; critical discussions on the challenges that generative AI poses to classroom culture e.g. digital divide, power dynamics, and intercultural inequalities; the sustainability of generative AI tools in classroom settings.

The Topic Editors seek three types of submissions:

1. Great Ideas for Teaching/Assessing with AI GIFT AIs: GIFT AIs are instructor- and student-tested ideas for effectively teaching and assessing a wide range of topics using generative AI. The goal of GIFT AIs is to inspire educators to include and to experiment with AI in their teaching practices. A GIFT AI may include: a) original single teaching activities; b) original teaching units spanning several days or weeks; c) original semester-long projects or approaches for an entire course; d) systematic data-driven reflection on assessment practices to monitor and support student learning and improve the quality of specific courses or overall programs. GIFT AI submissions should include the following components: 1) title begin with GIFT AI; 2) intended course, subject, class size, level, modality, duration, recommended skill sets for students, weekly schedule, cross-disciplinary relevance, and other relevant information; 3) objectives, learning outcomes; 4) theoretical rationale, gamification, authentic assessment, collaborative learning, etc.; 5) step-by-step implementation, instructions, preparation, preliminary steps, required learning materials, etc.; 6) debriefing, appraisal, including any limitations and/or suggested variations and reflections; 7) references; 8) appendix (optional).
2. Brief Research Report and Technology and Code 2 Short Research Reports on Teaching/Assessing with AI RESEARCH AIs: RESEARCH AIs offer researchers engaged in advancing our understanding of the use of AI in educational settings the opportunity to present recent findings from a series of interconnected studies and classroom-based research agendas. The goal of RESEARCH AIs is to inform the scholarly community about comprehensive research programs and current research developments, propose future research directions, and contribute to evidence-based practices for integrating AI in teaching.

and assessment Submissions to RESEARCH AIs should highlight how the presented findings stem from a coherent body of research that collectively addresses a unifying research question or theme RESEARCH AI submissions should include the following components 1 title begin with RESEARCH AI 2 abstract 100 200 words 3 introduction contextualization of the paper 4 main text comprehensive outline of the research agenda with discussion of relevant studies theories or models including research methodologies implemented and key findings 5 conclusion summarizing key points highlighting the research agenda s contributions and suggesting future directions 6 references 7 appendix optional The journals involved in this Research Topic accept a wide range of article types Suitable article types for RESEARCH AI submissions may include Brief Research Report and Technology and Code 3 Reflections on Teaching Assessing with AI REFLECTION AIs REFLECTION AIs are reflective pieces exploring the possibility of AI in teaching and assessing practices They are intended to inspire meaningful thought provoking debates among educators also in the style of op ed REFLECTION AIs should be forward looking outlining potential trajectories in pedagogical practices and or provocative discussing critical issues These reflective pieces may be based on a variety of approaches including for instance autoethnography case studies and historical analysis and authors may include bold suggestions and proposals Reflective pieces that critically question the inclusion of generative AI technology in the classroom are welcomed REFLECTION AI submissions may be written in first person form if relevant and should maintain a clear focus REFLECTION AI submissions should include the following components 1 title begin with REFLECTION AI 2 abstract 100 200 words 3 introduction contextualizing the reflection and presenting the specific focus guiding the reflection 4 main argument discussion of the central theme with relevant examples case studies or personal teaching experiences if applicable May include an outline of possible future trajectories critical reflections bold suggestions and innovative ideas 5 conclusion 6 references 7 appendix optional The journals involved in this Research Topic accept a wide range of article types Suitable article types for REFLECTION AI submissions may include Perspective and Opinion Word Count and Supplementary Material Submissions should be a maximum of 3 000 words excluding the abstract section titles figure and table captions funding statement acknowledgments and bibliography references The word count includes appendixes unless the selected article type allows more than 3 000 words Relevant generative AI codes and scripts mentioned in the text as well as data that are not of primary importance to the text or which cannot be included in the article because they are too large or the current format does not permit it such as videos raw data traces PowerPoint presentations etc can be uploaded as supplementary material during the submission procedure and will be displayed along with the published article For more information about the submission of supplementary material please see [here](#) Manuscript Summaries Authors are encouraged to submit a manuscript summary before submitting a full manuscript The deadline for manuscript summaries is 31 01 2025 A manuscript summary is simply a summary of the manuscript one plans to submit The Topic Editors will review all manuscript summaries and provide feedback that authors should consider when writing their full

manuscript Manuscript summaries will not be published externally and there is no associated fee The maximum word count for manuscript summaries is 2000 words Formatting Style Harvard is Frontiers recommended but not mandated citation style For manuscripts reviewed and accepted for publication the production process can include changing the style to Harvard Creative Onboarding Programs: Tools for Energizing Your Orientation Program Doris Sims,2010-09-23 Revised expanded and up to the minute the leading guide to serving the modern organization s onboarding needs It s a challenge overlooked by many The need to bring recent hires into the fold smoothly effectively and rapidly And in this state of the art multi phased guide to integrating new employees into an organization Doris Sims longtime HR and onboarding guru again redefines the expectations of what effective HR training and succession management can do for your business Fully updated with new case studies of best practices from successful companies Creative Onboarding is the edge your business needs The most complete resource for helping employees do their best work from the minute they first walk in the door this book delivers an arsenal of high end strategies and skills including Activities and checklists to help focus your onboarding efforts Advice on designing and implementing programs for employees at any level that mesh with existing organizational cultures The latest tools technologies that create programs with impact Ways to measure results and make positive adjustments on the fly In today s hyper competitive business environment seamless onboarding is an absolute necessity And Creative Onboarding puts within easy reach the benefits of improved retention and performance along with drastically reduced HR related overhead Topics covered include Designing New Employee Onboarding Companies Who Do it Right New Tools and Technologies to Make Your Program Fun and Memorable Onboarding New Managers Onboarding FAQs and more

*Organizational Behavior* Mary Uhl-Bien,Ronald F. Piccolo,John R. Schermerhorn, Jr.,2023-05-03 An accessible and practical discussion of organizational behavior In the newly updated third edition of *Organizational Behavior* a team of accomplished educators delivers a multidimensional text that combines analysis knowledge personal development and synthesis with useful pedagogical features that bring organizational behavior to life This edition reconsiders organizational behavior from an interdisciplinary vantage point showing students the interdependence of factors that explain human behavior Frequently addressed organizational behavior subjects are considered from within an integrated framework and are employed to answer functionally relevant questions about why people behave the ways in which they do as well as how to effectively influence and manage others
